Year	House Expenses	No. of Patients, Family.	Average pr head of Patients	of Family	Remarks	
Year ending 31 st Dec						
1825	1485 6 11	76	102		* During the first eighteen years given in this table, the Account was under the superintendance of Thomas Allen, who kept no separate Farm Account. A certain sum each year was added or subtracted to Housekeeping Expenses, as a set off for Rent. In the first period of six years the sum so added, and charged on the credit side of the ledger to the credit of Rent was £1428. The value of the produce of the Farm in North, Park, Fruit & Vegetables could not have been less than £290 per annum or for the six years £1650. Produce 1650 Deduct 1428 £ 1202
