The Geography of the United States

The first principle of the United States
is that of a free government
in which the people are the
sovereign power. The second
principle is that of a
republican form of government
in which the representatives
of the people are chosen
by the people themselves.

Dear Sir

I am so sorry to trouble you
owing to my clothes & personal
effects being badly bomb'd & my Cert

completely lost. Could you possibly
send me another copy of Tube Cert -
I was trained at The Retreat.
