PROOF OF THEOREM

Let α be a root of the equation

$$\alpha^2 + p\alpha + q = 0$$

5

where p, q are rational numbers.

Then α is a root of the equation

$$\alpha^2 + p\alpha + q = 0$$

and hence α is a root of the equation

$$\alpha^2 + p\alpha + q = 0$$

and hence α is a root of the equation

$$\alpha^2 + p\alpha + q = 0$$

and hence α is a root of the equation

$$\alpha^2 + p\alpha + q = 0$$

and hence α is a root of the equation

$$\alpha^2 + p\alpha + q = 0$$

and hence α is a root of the equation

$$\alpha^2 + p\alpha + q = 0$$

and hence α is a root of the equation

$$\alpha^2 + p\alpha + q = 0$$

and hence α is a root of the equation

$$\alpha^2 + p\alpha + q = 0$$

and hence α is a root of the equation

$$\alpha^2 + p\alpha + q = 0$$
