## P R E F A C E.

---

ARNOLD AND SONS, in presenting to the Profession the New Edition of their Catalogue of Veterinary Instruments, take the opportunity of tendering their thanks for the liberal support they have received during the last sixty years, and trust that by still continuing to produce Instruments of the very best construction, quality, and finish, to merit a continuance of that patronage hitherto accorded them.

All instruments are manufactured on the premises under Arnold and Sons' *personal* superintendence, thus enabling them to *guarantee* the quality of every article purchased.

The prices affixed are extremely moderate, taking into account the superior workmanship, and will bear a favorable comparison with other published lists; if, in some few cases, they be slightly in excess, it is because it is found to be impossible to produce Instruments at a lower rate, if the quality is *guaranteed*.

Orders from abroad must either be accompanied by a remittance or an order for payment in London, and Arnold and Sons request that, when orders are sent through an agent, it be distinctly stated that the Instruments are to be obtained

*direct* from them, as many articles of inferior quality are frequently represented as their manufacture.

*Every instrument is stamped "Arnold and Sons, London."*

Arnold and Sons, for the convenience of their friends, have made special arrangements to supply articles at manufacturers' prices; and any goods not enumerated in this Catalogue required by customers abroad will be procured for them on advantageous terms, a commission of five per cent. on the amount expended being the sole charge.

*Satisfactory London references required previous to opening new accounts. Cheques to be crossed Bank of England, and Post-office Orders to be made payable at Chief Office.*

35 & 36, WEST SMITHFIELD,  
LONDON, E.C.

May, 1874.

The following Testimonials have been received, which A. and Sons trust is sufficient proof and guarantee of the quality of all Instruments manufactured and sold by them:—

*From the* PRINCIPALS OF THE ROYAL VETERINARY COLLEGE.

14th December, 1871.

We hereby certify that Messrs. Arnold and Sons have supplied this Institution with Veterinary Instruments to the satisfaction of the officers for a period of not less than twenty-five years.

(Signed) JAS. B. SIMONDS.  
WILLIAM PRITCHARD.

*From the* PRESIDENT OF THE ROYAL COLLEGE OF VETERINARY SURGEONS.

35, NORFOLK STREET, SHEFFIELD,  
14th March, 1872.

I have for many years been in the habit of using instruments made by Messrs. Arnold and Sons, and I have pleasure in stating that they have been entirely satisfactory.

(Signed) B. CARTLEDGE.

*From the* PRESIDENT OF THE CENTRAL VETERINARY MEDICAL SOCIETY.

BROMPTON BARRACKS, CHATHAM,  
22nd March, 1872.

TO MESSRS. ARNOLD AND SONS.

GENTLEMEN,

I have much pleasure in testifying to the general excellence and high finish of the different instruments made by you, and which I have had occasion to use in the course of practice.

Yours very obediently,  
(Signed) G. FLEMING,  
*Royal Engineers.*

*From the late* PRINCIPAL OF THE ROYAL VETERINARY COLLEGE.

ROYAL VETERINARY COLLEGE,  
22nd November, 1871.

I certify that I have carefully examined the instruments produced to me by Messrs. Arnold and Sons, and I have no hesitation in expressing my marked approval of them.

(Signed) CHARLES SPOONER,  
*Principal and Senior Professor.*

BEECH HOUSE, BELTON.

For upwards of twenty years I seldom or never used, either in the dissecting-room or for operations upon the living animals, any other instruments than those manufactured by Messrs. Arnold and Sons, of West Smithfield, and I always found them very good.

(Signed) GEORGE WM. VARNELL,  
*Late Professor of Anatomy with Physiology at the  
Royal Veterinary College, London.*

TESTIMONIALS

The following Testimonials have been received which A. and S. have  
been in excellent health and contented in the quality of all Testimonials  
mentioned and sold by them.

From the Testimonial of the Hon. Wm. Pitt Rivers

1881

I have been using your medicine for some time and I have found it  
to be of great service to me in the treatment of my  
rheumatism and I have been able to do my  
usual work.

(Signed) Wm. Pitt Rivers  
1881

From the Testimonial of the Hon. General Pitt Rivers

1881

I have been using your medicine for some time and I have found it  
to be of great service to me in the treatment of my  
rheumatism and I have been able to do my  
usual work.

(Signed) General Pitt Rivers

## VETERINARY INSTRUMENTS.

*Arnold & Sons having purchased the stock, goodwill, marks, &c., of MRS. BRENNAND, (formerly LONG,) late of 217, High Holborn, purpose carrying on the business at their Manufactory. All orders in future please send direct to 35 & 36, West Smithfield, London.*

	£	s.	d.
Abscess Lancet in tortoiseshell handle . . . . .	0	3	0
Adie's Patent Horse-clipping Machine, large . . . . .	0	12	0
Ditto ditto small, with spring . . . . .	0	12	6
Ditto ditto Improved, with extra strong lever, bolt and nut . . . . .	0	15	0
Ditto ditto with Spring under front screws . . . . .	0	12	0
Ditto ditto Polished . . . . .	1	1	0
Aloes Bath, with 2 Pans for boiling water, complete . . . . .	1	10	0
American Nicking Knife (Professor Varnell's) . . . . .	0	4	6
Anæsthetic Cabinet, A. & Sons' Improved, containing Metal Bottle, covered velvet, double jets, and 16 oz. bottle of Robbins and Co.'s prepared Æther . . . . .	2	2	0

FIG. 1.

Anæsthetic Spray Apparatus, with single jet and glass bottle in Mahogany Box, Fig. 1 . . . . . 0 16 0

	£	s.	d.
Anatomical Syringe, 4 oz. with stop-cock and 6 plain pipes	1	12	0
Ditto           6 oz.           ditto           6 pipes	1	15	0
Ditto           8 oz.           ditto           8 pipes	2	6	0
Ditto with stop-cock pipes, 4 oz. 44s., 6 oz. 48s., 8 oz.	3	0	0
Aneurism Needle, in fixed handle	0	3	6
Anæsthetic Æther, Robbins & Co.'s, in pint stoppered bottles	0	7	6
Anti-Crib Biting Apparatus, by Mr. Caleb Blackman, late Farrier-Major 1st Life Guards	0	18	0
Arnold & Sons' Anti-Crib Biter, complete	1	10	0
Anti-Crib-biting Apparatus (Blackwell's), Elastic of Gutta-percha, Iron and Leather, constructed in such a manner that it cannot possibly injure the mane, a sure preventive against Crib-biting, and will keep a Crib-biter in good condition, Fig. 2	1	1	0
Apparatus (Blackwell's Patent) for Legs of Horses, producing numerous and constant streams or jets of cold water (or hot for fomentation), supplies itself upon the siphon principle from a pail, manger, or the tap of a cistern; they are fastened to the limbs by means of strap and buckle	0	15	0
Ditto with Regulating Tap	0	18	0
Ditto, Improved, to keep the apparatus away from the legs, thereby ensuring a regular stream of water	1	1	0
Ditto with Reservoir and Tap	1	10	0
Apparatus, complete, for Singeing Horses with Gas, 12 feet of Elastic Tubing, and 2 Burners.	0	12	6
Apparatus for Singeing Horses with Gas, Arnold and Sons' Improved, with Ball-and-Socket Joint, prevents the possibility of the tube twisting, 12 feet of superior Elastic Web-Tubing, 2 Burners, &c. complete	1	1	0
Apparatus for administering Food or Medicine in cases of Tetanus, complete	1	10	0
Apparatus, complete, for giving Horses or Cattle Draughts.	1	10	0
Apparatus for administering Chloroform, by Mr. Greswell	1	10	0
Apparatus for Drenching, (Parker's Registered)	0	10	6
Apparatus for Prolapsus, by Mr. Gowling	3	0	0
Apparatus to prevent crib biting, by Mr. C. Blackman	0	18	0
Appliance for Prolapsus, by Mr. Chattell	1	1	0
Armatage's, Mr., Mouth Gag	0	2	6
Armatage's, (Professor) Balling Iron, very portable.	1	1	0
Army Balling Probang	0	9	6

FIG. 2.

	£ s. d.
Army Measuring Standard . . . . .	1 10 0

FIG. 3.

Artery Forceps, or Bull Dogs, Fig. 3 . . . . .	0 2 6
Artery Forceps . . . . .	0 7 6

FIG. 4.

Artery Forceps, Improved, Fig. 4 . . . . .	0 7 6
Artificial Eyes for Horses, &c. . . . .	
Ball Boxes, to hold 6 Horse Balls, as made for the Royal Veterinary College . . . . . per gross	0 18 0
Ditto for 12 ditto ditto . . . . .	1 4 0
Balling Probangs, boxwood. . . . .	0 5 0
Ditto all leather . . . . .	0 7 6
Ditto spiral wire, covered with leather. . . . .	0 7 6

FIG. 5.

Balling Probang, A. & Sons' Improved, bound with steel bands, steel rod, as made for the Army, Fig. 5 . . . . .	0 9 6
Ditto ditto (Goodwin's) for giving Balls to Colts, &c. . . . .	1 10 0

FIG. 6.

Balling Gun, Arnold and Sons' Patent, with Spring Rod and India Rubber mouth piece, Fig. 6 . . . . .	0 15 0
---------------------------------------------------------------------------------------------------------	--------

It can be used with one hand; being noiseless in action, does not alarm an animal; and the end being of India-rubber it is impossible to injure the mouth.

	£	s.	d.
Balling Iron (Professor Armatage's)	1	1	0
Balling Iron, Common Circular	0	5	0
Ditto open-sided	0	7	6
Ditto ditto bright	0	10	6

FIG. 7.

Balling Iron, Improved, with Regulating Screw (Professor Varnell's), covered with India rubber to protect the Gums, very superior, Fig. 7	1	1	0
Bandage, Woollen, per yard, 4 in., 5 in., and 6 in. wide			
Bandages, Flannel, with tapes, &c. . . . . per set of four	0	6	0
Ditto Linen, ditto	0	6	0
Ditto Hemp	0	4	0
Baths, with 2 pans for preparing Aloes, Ointment, &c., with boiling water, all complete	1	10	0
Bird Stuffing Instruments in Leather Cases, containing Scissors, Cutting Nippers, and Pliers in one, Forceps, Scaletanged Scalpel, and two Scalpels, Curved Scoop, Narrow Knife and Curved Scraper	1	10	0
Bistoury Cachee, with Regulating Screw, to cut any required depth	1	1	0
Bistoury, curved (sharp or probe) in horn handle	0	5	6
Bistoury, Rowelling	0	6	6
Bistoury Cachee, for Cow's Teats	0	15	0
Bitch Forceps, of various sizes	0	12	6
Blackwell's Anti-Crib Biter, Elastic, of Gutta Percha, Iron and Leather, constructed not to injure the mane	1	1	0

	£	s.	d.
Blackwell's Rubber Knee Caps, very superior . . . . . per pair	0	12	6
Blackwell's Web, Fetlock, Speedy, Splint, Leg, and Strengthening Boots . . . . . 3s. to	0	9	0
Blackwell's Travelling Knee Boots, with patent springs . . . . .	0	12	6
Bleeding Lancet, tortoiseshell handle . . . . .	0	3	0
Blinds for Horses, very stout cupped leather . . . . .	0	12	6

Blackwell's Patent Whalebone and Gutta-percha Jockey's Elastic for Breaking Horses, easy mouthed and temperate, or exercising in frost, in loose boxes, and on led horses, prevents falling and broken knees. Complete . . . 60s. and 3 15 0

FIG. 8.

Blood Cans, graduated for six quarts . . . . .	0	4	0
Ditto ditto eight quarts . . . . .	0	5	6
Blood Pins . . . . . per hund.	0	1	0
Blowpipe with Trocar Stilette, Mr. Nicholls . . . . .	0	3	6
Blood Sticks . . . . .	0	1	3
Ditto loaded with lead, and opening at top for pins . . . . .	0	1	6
Blow-pipe, German Silver . . . . .	0	2	0
Boar and Tiger Hunting Knives . . . . . from	0	15	0
Bog Spavin and Thorough-pin Truss combined . . . . . £1 and	1	5	0
Bog Spavin Truss Improved . . . . . 15s. and	1	1	0
Bone Forceps . . . . . 5s. 6d. to	0	12	6
Boots, Hunting, &c., to be used temporarily in case of losing a Shoe, will fit any size foot . . . . .	0	18	0
Boots for the Knees . . . . . per pair 12s. 6d. and	0	16	0
Ditto for Speedy Cuts . . . . . 5s. 6d.	0	9	0
Ditto for strengthening . . . . . 7s. 6d.	0	10	6
Ditto for poulticing Horses' Legs . . . . . 15s. and	1	1	0
Ditto for water . . . . . 15s. and	1	1	0
Boots to prevent cutting under Arm . . . . .	0	12	0
Botanical Instruments in case, complete . . . . .	0	18	0
Bottles, Stoppered, of White Glass, for Surgery, W.M., 4 oz. 8s. 6d., 6 oz. 9s., 8 oz. 9s. 6d. per doz.			
Ditto ditto, N.M., 4 oz. 6s. 9d., 6 oz. 7s. 6d., 8 oz. 8s. per doz.			
Ditto ditto above 8 oz. stoppering included, per lb.	0	1	2
Bottles of Green Glass, for sending out medicine, 3 and 4 oz. 12s. 6d. . . . . per gross	0	14	0

	£	s.	d.
Bottles of Green Glass, for sending out medicine, 10 oz. 19s., 12 oz. 20s., 14 and 16 oz. . . . .			
	per gross	1	3 0
Bow or Dressing Forceps . . . . .		0	2 6

FIG. 9.

Bow or Dressing Forceps, Arnold's Improved, Fig. 9 . . . . .		0	4	6
Boxes, Willow: { $\frac{1}{2}$ oz.   1 oz.   2 oz. { 3 oz.   4 oz.   6 oz. 1s. 3d.   1s. 6d.   1s. 9d. { 3s. 0d.   4s. 0d.   6s. 0d.				
Brass Horse Clyster Syringe, with 6 feet superior Elastic Web Tubing, Ebony Clyster Pipe, Brass mounts, &c. Arnold and Sons' Modification of Read's expired patent . . . . .		2	10	0
Ditto, in Mahogany case, lined velvet . . . . .		3	3	0
Brass Horse Clyster Syringe, with 6 feet superior Elastic Web Tubing for administering Clysters, Fluids, or Gruel, Elastic Horse Catheter, brass mount, Ebony Clyster Pipe, Ebony Mouth Gag, in mahogany case complete . . . . .		4	0	0
Ditto ditto, if fitted with Tobacco Fumigator . . . . .		4	12	0
Brass Quittor Syringe, Arnold and Sons' Improved, with Rings, used with one hand . . . . .		0	7	6
Brass Tips for Cows' Horns . . . . .		0	0	8
Broadbent's Tumour Syringe for injecting Tumours, &c. . . . .		1	5	0
Bronchotomy Tube, Improved by Mr. J. Roalfe Cox . . . . .		0	10	6
Ditto ditto by Mr. Field . . . . .		0	12	6
Ditto ditto plated with nickel silver . . . . .		0	15	0
Ditto ditto Vulcanite by Mr. Gowing . . . . .		0	9	0
Ditto common . . . . .		0	3	6
Ditto Arnold and Sons' Improved . . . . .		0	4	0
Ditto with straps complete . . . . .		0	6	0
Ditto by Professor Spooner . . . . .		1	10	0
Bronchotomy Trocar and Canula, by Mr. Gowing . . . . .		1	1	0
Ditto Forceps, regulating, for taking out any size piece of Cartilage, by Professor Spooner . . . . .		0	10	0
Budding Irons . . . . .		0	3	6
Buffers . . . . .		0	2	6
Bull Dogs' or Artery Forceps, various . . . . .		0	2	6
Bullet Forceps, plain pattern . . . . .		0	5	6
Ditto Arnold and Sons' Improved, with Shifting Blades . . . . .		0	10	6

FIG. 10.

Bullet Extractor, Fig. 10 . . . . .	0	12	0
Bullock Holder or Bull Dog . . . . . 5s., 10s., and	0	17	0
Bull's Nose Punch, for cutting out the piece of cartilage prior to placing in the Ring . . . . .	0	15	0
Ditto, polished superior . . . . .	1	5	0
Bull Rings, Copper, for Ringing Bulls (double joints) . . . . .	0	3	0
Ditto Iron, galvanized, ditto . . . . .	0	2	0
Case containing Abscess, Bleeding and Eye Lancet . . . . .	0	10	0
Case for Quart Clyster Syringe, mahogany . . . . .	0	5	0
Casting Hobbles, plain pattern . . . . .	4	4	0
Ditto with cross hobble . . . . .	5	5	0
Casting Hobbles, A. and Sons' latest improvement by which the horse is immediately set at liberty by simply removing the screw, extra strong and very superior . . . . .	5	0	0
Ditto ditto with cross hobble and Improved Double Swivels, the set complete . . . . .	6	6	0
Ditto side line . . . . . 10s. 6d. and	1	10	0
Castrating Clams, with slide on the handles . . . . .	0	14	0

FIG. 11.

Castrating Clams, with spring regulating rack, Fig. 11 . . . . .	0	17	0
Ditto with regulating screw for equal pressure . . . . .	1	4	0
Ditto Professor Varnell's improved, boxwood . . . . .	0	7	6
Ditto Forceps, for drawing lambs . . . . .	0	7	6
Ditto Hobbles, Arnold and Sons' improved, complete . . . . .	2	2	0
Ditto Knives shut up in horn handle . . . . .	0	3	6
Ditto Knives, with opening at top for Needles, &c. . . . .	0	5	6
Ditto Irons . . . . .	0	3	6
Ditto Instruments, in leather case, containing Castrating Clams, Knives, and two Irons . . . . .	1	14	0
Catheters, Double Channel, for washing out Bladder with Syringe, Complete, for Horses . . . . .	3	3	0
Ditto ditto for Mares . . . . .	2	15	0

	£	s.	d.
Catheters, Elastic, for Mare, with whalebone Stilette	0	7	6
Ditto metallic ditto ditto	0	4	6
Catheter, elastic, for Horse, with whalebone Stilette	0	10	0
Ditto elastic, for Sheep	0	7	6
Ditto for Dogs	0	3	6
Ditto for Foals	0	10	0
Cattle Gauge Ewart's	25s.	1	10
Cattle Gauge, Ewart's, for weighing Oxen, Sheep, and Swine, with key on Slide Rule Principle	4s. 6d. and	0	7
Ditto ditto Ivory Slide	5s. 6d. and	0	8
Ditto ditto Ivory Rule and Slide	10s. and	0	15
Ditto ditto with Electrum Slide		0	16
Ditto for weighing carcasses of Live Animals in 3-inch Circular Brass Case, and 30 Feet Tape with Electrum Slide		1	5
Ditto ditto with Logarithmic Circle of natural and square numbers on the reverse		1	10
Cattle Measure, Weights &c., in leather case		0	12
Cattle Probang (Monro's), with cane Stilette		0	16
Ditto ditto whalebone ditto		1	1
Ditto Trocar, with German silver Canula for Hove		0	7
Caustic Case, ivory		0	2
Ditto ebonite		0	3
Ditto ebony, with silver holder		0	4
Ditto silver	from 6s. 6d. to	0	12

FIG. 12.

Caustic Case, Arnold and Sons' Patent, with bayonet joint, and Platina holder, Fig. 12		0	15	0
Ditto plated, with Exploring Needle		0	8	6
Caustic Clams, Mr. Gowing's		0	2	0
Ditto Professor Varnell's		0	2	6
Ditto plain pattern, to tie		0	1	6
Ditto with hinge only		0	2	6
Ditto improved, with hinge-joint and screw-key		0	10	0
Caustic-holder, Glass		0	0	6
Ditto ditto in leather case		0	1	0

		£	s.	d.
Caustic moulded to fit Caustic Cases . . . . .	per doz.	0	8	0
Cauterising Irons of various shapes, bright . . . . .		0	3	6
Cavesson or Breaking Strap, Mr. Blackwell's . . . . .		1	5	0
Chain Hooks, for dissecting . . . . .		0	2	0

FIG. 13.

Chain Saw, Fig. 13 . . . . .		1	15	0
Champagne Nippers . . . . .	4s. 6d. and	0	6	0
Charlier's Shoeing Knife . . . . .		0	5	6
Ditto Rasp . . . . .		0	3	0
Charlier Shoes of all sizes . . . . .	per set	0	5	6
Chesterman's Patent Tapes, in spring cases . . . . .	1s. 6d. to	0	5	6

FIG. 14.

Chisel, by Mr. Gowing, Fig. 14 . . . . .		0	17	6
Chloroform Cap, by Mr. Gresswell . . . . .		1	10	0
Circingles, superior, for using with A. and Son's Improved Casting Hobbles . . . . .		1	5	0
Clamp, by Mr. Gowing, for closing the Caustic Clams . . . . .		0	6	0
Clamp for Hernia . . . . .		0	5	0
Clams for Castrating by Torsion . . . . .		0	14	0
Clams for Hernia, with screw-key, 2 in a set . . . . .		0	10	0
Ditto taking off Warts . . . . .		1	5	0
Clams (Steel) Hernia, Professor Pritchard's . . . . .		0	7	6
Clinical Thermometer, self-registering, for ascertaining the				

FIG. 15.

temperature of the body, in morocco case, Fig. 15 . . . . .		0	10	6
Ditto in plated case . . . . .		0	12	6

FIG. 17.

FIG. 16.

time, when closed, is less cumbersome than a common pencil case, and may be carried in the waistcoat pocket.

“It may be fairly claimed for the instrument that it has the merit of perfect simplicity, and, after a reasonable trial, I can assert that it is efficient in practice.”—*Extract from ‘Veterinarian,’ May, 1873.*

Clipping Combs, horn . . . . .	6d., 9d., and	0	1	0
Ditto steel . . . . .	1s. 6d. and	0	2	6
Ditto German silver . . . . .		0	2	0
Clipping Scissors, Small . . . . .		0	4	6
Ditto Medium . . . . .		0	5	6
Ditto Large . . . . .		0	6	6
Ditto with Leather-covered . . . . .				
Bows, extra . . . . .		0	7	0
Clyster Apparatus, with India-rubber Elastic Bag complete . . . . .		0	9	0

Clinical Thermometer, in Boxwood Case, Fig. 16	0	9	0
Ditto, in Ivory Case . . . . .	0	10	0
Ditto, in Silver Case, Fig. 17 . . . . .	0	12	6
Ditto, Patented (suggested by Professor Brown), in German silver case, Fig. 18 . . . . .	0	10	6
Ditto, silver . . . . .	0	12	6
If with Centigrade as well as Fahrenheit, 2s. 6d. extra.			

N.B.—Arnold and Sons guarantee the accuracy of every thermometer, which is tested with an apparatus invented by them, and verified at Kew.

“No one now hesitates to admit the value of the thermometer as an aid to diagnosis, but it is almost too much to expect that every veterinary surgeon shall carry with him on all occasions an instrument a foot in length. Even the more modern thermometers, of six or seven inches’ length, are not convenient for any pocket, although it was an achievement to reduce the length of the instrument one half.

“Messrs. Arnold, instrument makers, of West Smithfield, have carried out my idea in a perfectly satisfactory manner, and by the very simple arrangement which is shown in the woodcut the three-inch thermometer is converted at will into an instrument six inches in length, which is perfectly effective for all our patients, and at the same

**AND 28A, LITTLE SUTTON STREET, E.C.**

**CAUTION.** Other Salines being placed before the public with the mere transposition of the words of my labels, which do not contain any of the **HEALTH-RESTORING ELEMENTS** of **LAMPLOUGH'S** Pyretic Saline, it is of the utmost importance that the Name and Trade Mark on a Buff coloured wrapper envelopes each bottle, and on which dependence alone can be placed.

## LAMPLOUGH'S PYRETIC SALINE

Is found pre-eminently beneficial in preventing and curing **SMALLPOX**, by Purifying, Invigorating, and Vitalising the Blood. Any person who has already this complaint should take it, and be kept in a cool and darkened room, to prevent its leaving any trace on the features.

**SICKNESS, HEADACHE, and NAUSEA**, are in most cases immediately relieved by taking a teaspoonful in a tumbler of cold water. This can be repeated once or twice in two hours, if needful.

**SEA VOYAGES.**—It is a very valuable accompaniment, and should on no account be omitted. It instantly allays the sea or bilious sickness.

For **BILIOUS CONSTITUTIONS**, giving rise to vitiated secretions, Indigestion, and Eruptions on the Skin a teaspoonful should be taken daily with the dinner in a tumbler of water, and the same quantity on going to bed.

May be obtained of the Proprietor,

**H. LAMPLOUGH, Consulting Chemist, 113, Holborn, E.C.,**

*Second Door from Hatton Garden, London, and of all respectable Chemists.*

## W. CLARK'S PATENT HORSE CLIPPER AND SHEEP SHEARS.

Such is the marked superiority of this Clipper over all others, that horses have been clipped by one single machine in one hour and three-quarters. It prevents anything like grooves, ridges, or furrows on the coat of the newly clipped animal.

W. CLARK begs to inform his customers that all his Clippers are stamped with his name, either on the Plates or Wooden Handles. All others of his pattern not so stamped are infringements of his Patent.

The above machine is admirably adapted for shearing sheep, being a great improvement over the present Sheep Shears, performing the work in much less time in a far superior manner and without the possibility of injury to the animal's skin

W. CLARK, 232, OXFORD STREET, LONDON,

 A Full List of Liqueurs can be had on application.

From 'The London Medical Record,' Nov. 19th, 1873.

"NOVARINTA.—We have had this wine, introduced by Messrs. WARD & SON, under occasional observation since it was first introduced, and have taken some pains to ascertain how far samples purchased and examined at various times justified the favorable statements which have been made to us, and which we have seen publicly put forward concerning it. The result is as follows.—

"The analysis of a sample purchased from C. WARD & SON, Mayfair, July 2, 1873, showed—

Specific gravity at 60° Fahr. . . . .	1·0137
In 100 parts by weight—	
Alcohol . . . . .	15·3
Fixed organic matter, comprising glucose, &c. . . . .	8·7
Ash . . . . .	0·3
Water . . . . .	75·7
	100·0

"This corresponds so closely with the analyses of other samples forwarded to us, and which we have had purchased, that it is unnecessary to quote them. They are practically represented by the above.

"In flavour and condition the most recent samples are the best, and will hold their own against the finest port wine shipped. It differs, however, from port wine in this important particular. This is a growth, port wine is a more complex artificial product. Looked at as a dietetic wine, the most remarkable and valuable characteristic of Novarinta is its freedom from acidity. This is, of course, easily tested chemically and quantitatively; but as a familiar test of the quality and condition of the wine, it will be found that, if a bottle be left only half full for several weeks, it will flatten a little of necessity, but will show neither a mothery head of fungoid growth, nor yet additional acidity, as claret, Burgundy, and Hungarian wines will do. There can be no more effective and homely test of its being a well-made, sound, and wholesome wine. As a wine for the table, it is likely to be highly appreciated by all who have any taste for wine of a port character, but of a delicate, peculiar, and excellent flavour. The richer kind of Novarinta is most likely to hit the popular taste, from its striking resemblance to a high class port; but the dry Novarinta is more racy, shows more character and finer growth, and is better calculated for use as a medicinal stimulant. To show this wine to perfection, it should lie twelve months in the cellar to allow it to crust. The dry Novarinta may be styled a winter claret; fuller in body, and less cold, than ordinary clarets are. We consider it fully equal to port wine of three times its price; and that, we believe, will be the verdict of connoisseurs."

*In London and the Suburbs our Carts deliver even Single Bottles free, and we pay Carriage into the Country on a Single dozen.*

**C. WARD & SON, 1, Chapel Street West, Curzon Street, W., London.**  
**SOLE IMPORTERS OF THE RED NOVARINTA.**

PROFESSOR BROWN'S  
**POCKET**  
**CLINICAL THERMOMETER.**

(PATENTED.)

EXTRACT FROM 'VETERINARIAN,' MAY, 1873.

"No one now hesitates to admit the value of the thermometer as an aid to diagnosis, but it is almost too much to expect that every veterinary surgeon shall carry with him on all occasions an instrument a foot in length. Even the more modern thermometers, of six or seven inches' length, are not convenient for any pocket, although it was an achievement to reduce the length of the instrument one half.

"Messrs. Arnold, instrument makers, of West Smithfield, have carried out my idea in a perfectly satisfactory manner, and by the very simple arrangement which is shown in the woodcut the three-inch thermometer is converted at will into an instrument six inches in length, which is perfectly effective for all our patients, and at the same time, when closed, is less cumbersome than a common pencil case, and may be carried in the waistcoat pocket.

"It may be fairly claimed for the instrument that it has the merit of perfect simplicity, and, after a reasonable trial, I can assert that it is efficient in practice."

Patent Pocket Clinical Thermometer, in Silver	s.	d.
Case, with Bayonet Joint, each	12	6
Ditto, ditto, in German Silver Case, each	10	6

If with Centigrade Scale in addition, 2s. 6d. extra.

*The above can be sent free by Post on receipt of Stamps or Post Office Order.*
