Preliminary list of Medicine Chests in the
Wellcome Historical Medical Museum

The chests are arranged according to type.
Items listed are only a guide to interesting or less common items,
(for example, earthenware tiles and composition mortars have been
noted but not the common glass ones unless they are of unusual shape).

See separate lists for names of chemists and druggists
appearing on bottles in the chests and for detailed survey of scales
and weights, and measures.

Preliminary list of Medicine Chests in the
Wellcome Historical Medical Museum

(10)

The chests are arranged according to type. Items listed are only a guide to interesting or less common items, (for example, earthenware tiles and composition mortars have been noted but not the common glass ones unless they are of unusual shape).

See separate lists for names of chemists and druggists appearing on bottles in the chests and for detailed survey of scales and weights, and measures.
