**AN ARMLESS BRIDE.**—An extraordinary marriage is reported by the *East Sussex News* of yesterday to have taken place at Jevington early this week, the ceremony being performed by the Very Rev. Archdeacon Philpott in the presence of a large congregation. The nuptial pair both belong to the parish of Jevington, but the singular part is the fact that the bride has no arms, and the ring had to be placed on the third toe of her left foot. At the conclusion of the marriage ceremony she signed the register, holding the pen with her toes, in a very decent "hand." The bride has accustomed herself to use her needle and do many other useful things with her toes.
