# TEA TREE OIL

## MELALEUCA ALTERNIFOLIA

This invaluable natural, antiseptic essential oil, with its natural and distinctive scent, is found only in the leaf of a tree native to Australia. This particularly rare species is found in one small part of the North East coastal region of New South Wales.

Pure oil is extracted from the leaves using advanced steam technology.

The 'amazing' properties of the *Melaleuca alternifolia* leaves were known for hundreds of years by the aborigines who frequented a lagoon where leaves from the *Melaleuca* had fallen and created a natural 'antiseptic bath'.

*Melaleuca alternifolia* became known as 'Tea Tree Oil' when Captain Cook's crew used the leaves, with their natural and distinctive scent, to brew a 'spicy and refreshing' tea. The oil was used by early white settlers for treatment of wounds, insect bites and sunburn. Today, in Australia, Tea Tree Oil is classed as a medical product and is looked on by many as a 'First Aid Cabinet in a bottle'.

**USES** Most skin problems usually have one common contributory cause – the uncontrollable growth of bacteria or fungi.

Tea Tree Oil is a broad spectrum bactericide and fungicide providing a natural solution to controlling the growth by killing bacteria and fungi thus providing help to many everyday irritating skin problems.

**Natural Pure Oil** – 7.5ml: Tea Tree Oil's antiseptic properties disinfect and penetrate the skin deep down. The oil kills bacteria and fungi while maintaining the natural balance of the skin. Its soothing properties help to keep the skin cool and comfortable and is safe to use on broken skin. Using a cotton bud apply 2-3 times daily, after washing, to spots, blemishes and affected areas.

**Daily Cleansing Wash** – 150ml: Use to help hygienically cleanse blocked pores. Used daily as part of a programme it removes excessive oil and will protect against spot causing bacteria while maintaining the skin's natural balance and pH. Non-allergenic and non-drying.

**Preevent** – 3 x 5ml: Specially formulated to recreate the natural bacteria culture and moisture level in the vagina. A completely natural way to maintain vaginal moisture and lubrication. Antiseptic, hormone free, non-greasy and non-irritant. A full instruction and information leaflet is supplied.

**Facial Moisturiser** – 50ml: A nourishing moisturiser which soothes skin and assists suppleness. Kills bacteria and is ideal for use on spot prone skin. Tea Tree Oil plays an important role as a carrier for other high quality nutrients into the skin helping to maintain moisture level and allowing skin to 'breathe'. Suitable for all the family. Apply morning and evening after cleansing. Hypo-allergenic.

**Antiseptic Treatment Lotion** – 150ml: Is suitable for all the family and is safe to use daily. Easily absorbed, it works to care and protect skin and is extremely therapeutic in the treatment of sore, dry and cracked skin. Non-greasy, it will assist in maintaining and promoting healthy skin tissue. Use particularly after sun, shaving and after nappy changing. Apply liberally for immediate soothing, rehydration and nourishing of skin.

**Antiseptic Foot Treatment** – 150ml: A soothing therapeutic lotion which effectively eliminates fungal problems. Applied daily and especially before exercise to cleansed dry feet it will kill bacteria which causes foot odour. Massage over feet, soles and heels and between toes, stroking towards the heel to nourish dry skin and cracked heels and restore the natural balance to the skin.

**Ketsugo** – 60ml: Used in conjunction with Australian Bodycare products Ketsugo will prevent the skin conditions brought about by excess oil production. Ketsugo with Isolutrol, is a unique method of treatment for oily and combination skin and the problems related to these conditions such as outbreaks of spots and blemishes. Ketsugo normalises oil production from the sebaceous glands.

Tea Tree Oil is the strongest natural antiseptic known to man but can be used on a daily basis without damage to surrounding healthy skin tissue.

A gentle anaesthetic, Tea Tree Oil soothes as it relieves and leaves no oily film on the skin. It is safe to use on broken skin.

The distinctive scent, similar to Eucalyptus oil, disperses naturally after a few minutes.

# AUSTRALIAN BODYCARE

Australian Bodycare own their own plantations of *Melaleuca alternifolia* and use only the purest oil in a range of products developed for therapeutic use in many annoying everyday skin conditions.

When purchasing Tea Tree Oil products be sure it is *Melaleuca alternifolia* as there are some 100 other species of Tea Trees. *Melaleuca alternifolia* should be stated on the packaging and it should state the percentage of oil in the product.

For optimum effectiveness all Australian Bodycare products contain a minimum of 1% pure Tea Tree Oil per 100% of volume.

Should you have any difficulty in locating these products please phone: 01892-531300 for assistance.
