Pegasus Products

PEGASUS PRODUCTS has gathered flowers and stones world-wide in order to provide you with an extensive vibrational apothecary. Over 800 different flower essences, gem elixirs, combinations and homoeopathic remedies are now available.

Flower essences and gem elixirs have been used by many cultures for thousands of years. We utilise methods of preparation obtained from this rich history as well as information derived from the landmark books of Gurudas:

"Flower Essences and Vibrational Healing" and "Gem Elixirs and Vibrational Healing, Vols. 1 and 2". Flower essences and gem elixirs are powerful balancers which are healing to your entire being. These are all used by individuals concerned with growth and self realisation.

How the Essences are Made

PEGASUS PRODUCTS are the result of prayer and spiritual guidance. After a thorough cleansing, quality flowers and gems are placed in distilled water and exposed to sunlight for a specific period of time. Sound, light and pyramid technologies are utilised to increase strength. We bottle the essences in a centred and conscious manner. All of our products are further charged and amplified underneath a special pyramid structure before being shipped to you.

When the sun strikes the distilled water, the life force of the mineral or plant is melded into the water. This life force is transferred to people as they assimilate these vibrational remedies.

There is a law of vibration upon the molecular level. These vibrations make up many of the activities that eventually become the dense organic matter of the body physical. Flower essences and gem elixirs, due to their vibrational frequency, can form a sympathetic resonance within different aspects of the physical body. Creating a greater harmony within the energetic parts of the body is but one utilisation of these remedies. They also create the opportunity to examine certain behaviour patterns, beliefs and thoughts which ultimately lead to disease states, emotional imbalance and spiritual disharmony. By understanding the roots of a particular issue, we choose to alter that pattern so that we may move into a greater state of wholeness.

SUGGESTIONS FOR USE

There are many techniques which may be used to select the proper vibrational remedy. You may pick a remedy based on the list of potential effects in our materials, or you can use techniques such as using a pendulum or muscle testing. Always follow your intuition and higher guidance when choosing which of these methods to use. Develop your own practices. There is a part of you that always knows which essence or essences are the most appropriate.

- Three to seven drops may be placed under the tongue, directly from the stock bottle.
- Three to seven drops may be placed into a glass of liquid and sipped. Pure water, fruit juice or wine may be used.
- Drops are generally taken three to four times a day. They may be taken more often if this feels to be appropriate. Essences and elixirs work best if they are not taken immediately before or after eating. It may be best to allow at least a half hour before or after meals.
- Keep bottles away from televisions and microwave ovens. Store in a cool & dry space.
- Being in a relaxed and receptive state is very important. Take a few deep breaths. Relax the muscles of the face, jaw and throat.
- Using visualization techniques and/or affirmations helps to empower what you wish to accomplish. See, feel and imagine the essence or elixir at work. Visualize the colour and shape of the gem or flower.
- Shaking the bottle vigorously activates the essence.

MOST IMPORTANTLY, always listen to your inner voice for guidance. Keep an open mind and don't limit yourself to the uses listed here and in other books. Use these essences and elixirs with a sense of LOVE, JOY and DELIGHT.
