NATURAL REMEDIES

Advice: The law requires that the remedies that we sell have no advertisement and no claims made for them. We are happy to advise you on the choice of remedies available. We cannot, however, choose a remedy for you. We would appreciate your co-operation in this and will give you every assistance in making your choice.

Homoeopathic: We are constantly expanding our range of remedies to include not only those for use in acute conditions (first-aid and minor ailments), but also to offer a more specialised selection. In order to keep pills at the quality at which you buy them store them away from strong smelling substances and direct light. Medicinal Herbs: We recommend that our customers make themselves familiar with the various ways in which dried herbs are prepared before use as medicines (infusions, decoctions, hand and foot baths etc.). This is to ensure that the maximum benefit is gained from any particular herb used. We have books available for use in the shop that give clear instructions on how these medicinal herbs may be prepared correctly.

MEDICINAL HERBS & POWDERS

All our herbs and herbal products are organically grown or wild crafted where possible.
