A
BRIEF SKETCH
OF THE
WORLD'S WONDER

MISS MILLIE CHRISTINE was born in 1851. She is now 33 years old. She has two separate heads, four arms, and four feet, which in one perfect body meet. Both heads talk and sing to her visitors. She walks on two or four feet; and dances a Schottische, Waltz, or Polka, with herself, with as much ease and grace as two separate and distinct individuals can.

Both heads are empowered with great intelligence, and they have had the advantages of a fine education—refined, cultured and accomplished—and without doubt, one of the happiest and most contented persons living.
