MON

day

Fill your lungs with clean air—but avoid holding your breath, however strenuous the exercise.

F

Flat Foot is Fatal to Fitness

Tongue

Standing feet together, arms stretched above head. Rising on toes, go down to full knee bend, at the same time swinging arms down in front, and as far back as possible—return to starting position and repeat.

Inactive

Internals Indicate Inefficiency

Lying on the back with knees bent and feet on ground. Draw the muscles of the abdomen hard in and a little upward. Then release again. These movements to be done continuously. (N.B.—This exercise will appear in some form every day, and will be called "Stomach Massage.")

These Tone Tummy Muscles

Sitting on a blanket or bed, knees bent and hands clasped round the knees. Roll backward and forward on a loose rounded spine. End by rolling on to feet without use of the hands.

N

Never forget that team work depends upon the efficiency of each individual.

E

Every joint and muscle should move freely. If you move each joint daily to its full extent you will keep it supple and efficient.

S

Soap and water and a bottle of iodine will save a lot of trouble, if attention with these is given to any little sore, spot or scratch.

S

Soldiers never neglect their guns, so why neglect your body?

Never Neglect the Neck

Towel or stick held behind shoulders with one arm bent and the other sideways—head turn with alternate arm bending and stretching sideways.

Easy Waist Exercises Eliminate Exhaustion

Standing with feet apart. Bend down and grasp one ankle with both hands. Return to upright position and repeat to other side.

Shoulders + Spine Should be Supple + Strong

Kneeling on hands and knees. Without moving the hands sit back on the heels bringing forehead to floor. Keeping the nose close to the floor move the body forward until the shoulders are in line with the hands. Stretch the arms and assume the starting position. (PLUTO SNIFF)

Sixty Seconds Spent Jumping Strengthens Stamina

To complete fitness, do a little skipping

FRI

Find a few minutes frequently for these exercises. The time will be well spent.

F

Flat Feet is Fatal to Fitness

Tongue

Standing feet closed, rise on to the toes as high as possible keeping the ankle-bones together, roll back on to the heels raising the toes and balancing the body by leaning forward.

I

If you are stiff and tired, relax.

Standing. Feet apart with hands on low hips—Stomach Massage.

T

Tone up your internals by a little massage every day.

N

Nothing is gained by idleness—a little time spent on movement remedies sluggishness.

E

Expend your energy by promoting fitness. To feel fit is to be fit.

S

Stomachs that bulge mean stagnant bowels.

S

Standing for long periods causes stiffness. Skipping will remedy this. Try it.

Inactive Internals Indicate Inefficiency

These Tone Tummy Muscles

Lying on the back. Bend the knees, slowly rounding the spine. Supporting the back with hands straighten the knees and reach upward with the feet. Return slowly to lying on the back.

Never Neglect the Neck

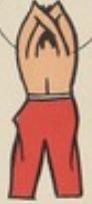

Knees full bend, hands on floor and head bent back. Keeping the hands on the floor stretch the knees, pressing the head well towards the knees.

Easy Waist-Exercises Eliminate Exhaustion

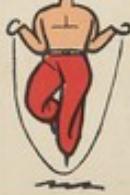

Sitting legs straight and apart. Place both hands on ground outside one hip. Raise the hips as high as possible at the same time bending the elbows. Repeat on the other side.

Shoulders & Spine Should be Supple & Strong

Stand with feet apart and swing the arms loosely sideways and upwards, and drop hands to touch opposite shoulder-blades.

Sixty Seconds Spend Skipping Strengthens Stamina

To complete fitness, do a little skipping.
