relief

for
every
phase
of the
cough

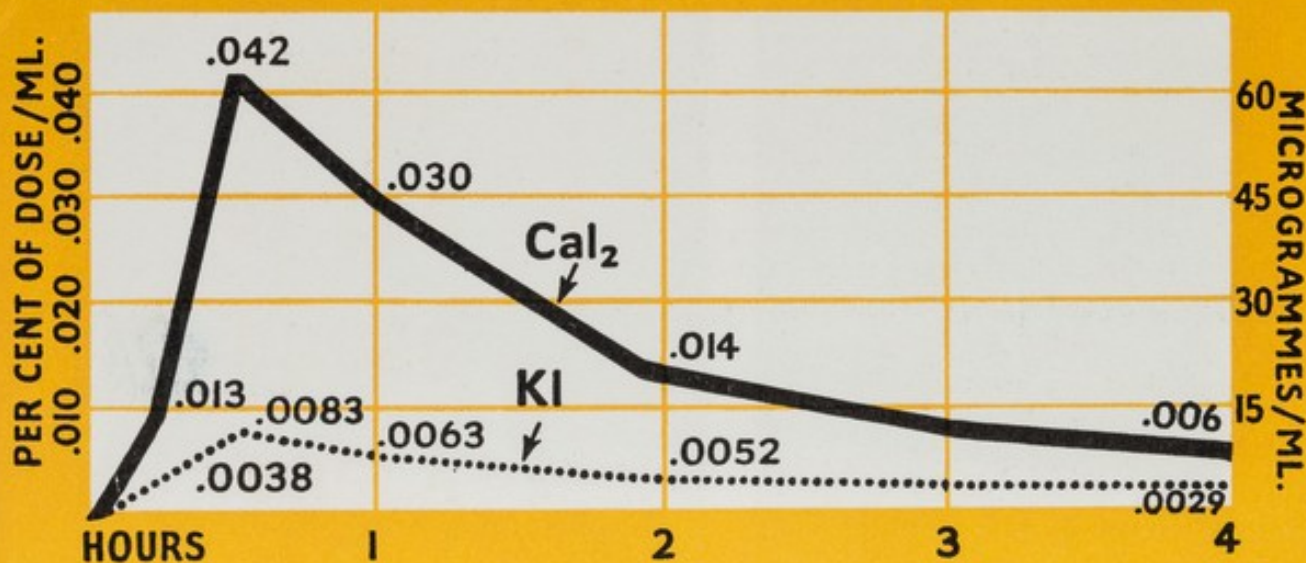

Calcidrine Syrup, a tasty combination of expectorant, bronchodilator and sedatives, provides relief from the cough centre all the way down to the small bronchi.

Calcidrine Syrup is an effective therapy for coughs associated with acute or chronic respiratory infections and coughs associated with allergy and asthma.

Each fluid ounce contains:

CALCIUM IODIDE, B.P.C., 1934 ...	14 grs.
EPHEDRINE HYDROCHLORIDE B.P.	$\frac{1}{2}$ gr.
CODEINE PHOSPHATE B.P.	$\frac{1}{2}$ gr.
NEMBUTAL (Pentobarbitone Sodium B.P.)	$\frac{1}{2}$ gr.
ALCOHOL B.P.	28 min.

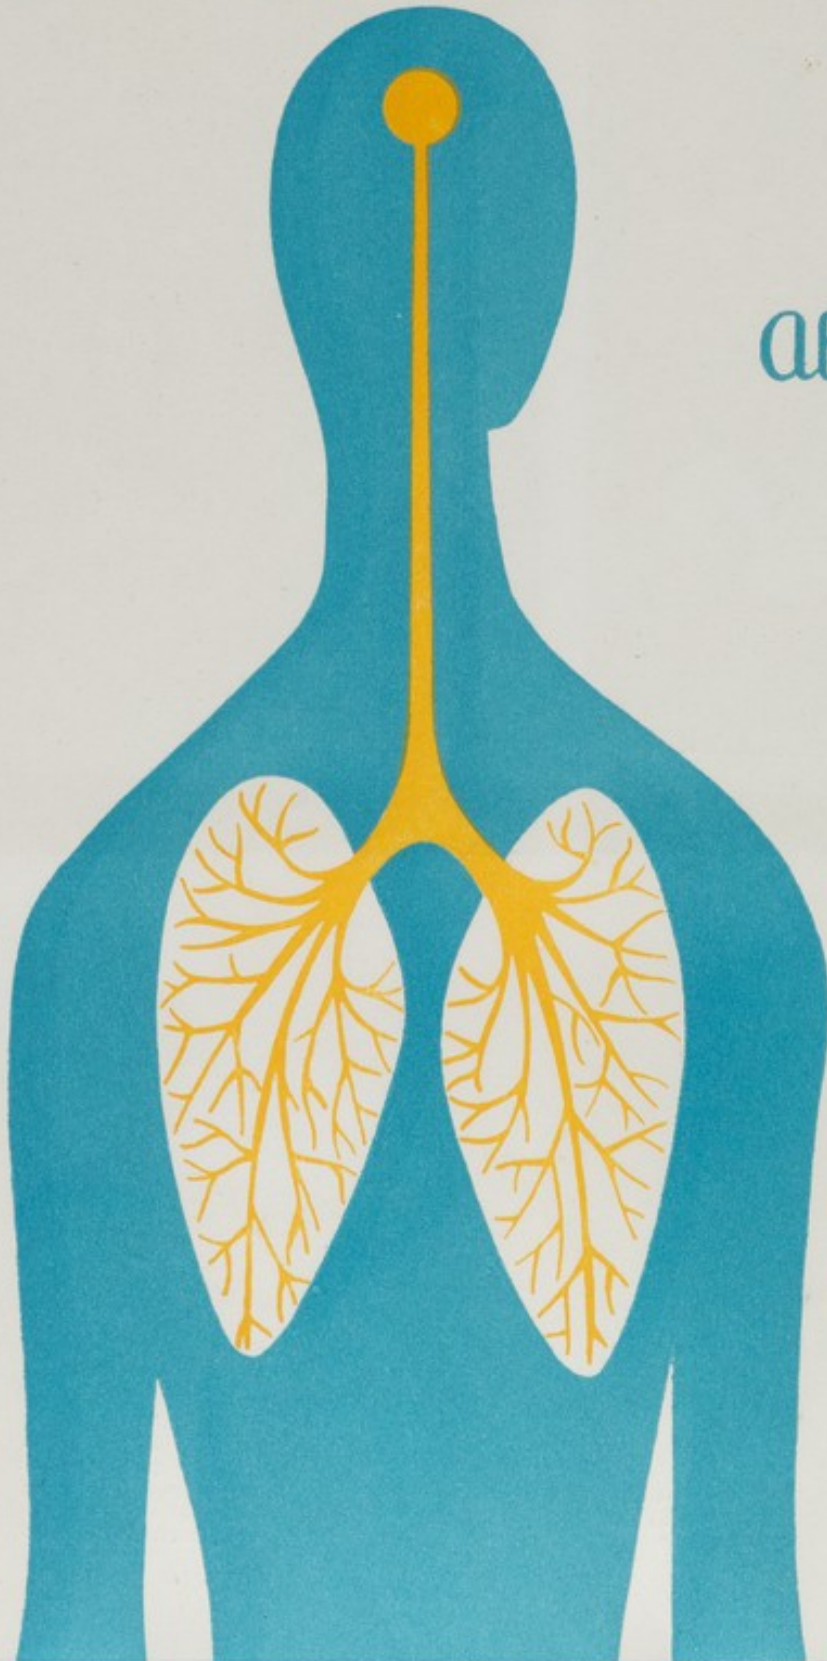

ABBOTT LABORATORIES LTD · LONDON

COMPARISON—CONCENTRATION OF IODIDES IN BRONCHIAL TREE

Calcium Iodide versus Potassium Iodide—Therapeutic value of iodides depends on their concentration in the bronchial tree. Note high, rapid concentration with calcium iodide after single dose of one teaspoonful of Calcidrine versus lower concentration with similar dose of potassium iodide.
