#### GREENWICH HOSPITAL

The mediaeval palace of Placentia at Greenwich was demolished in 1662 when Charles II commissioned the erection of a palace designed by John Webb on the site. Mary II converted the palace into a "maritime Chelsea" for naval pensioners and disabled men. The building was completed mainly by Wren and Vanbrugh. The view, engraved approximately in 1845, shows the Hospital seen from the Isle of Dogs, with the Observatory crowning the Park behind it. Among the steamers and sailing ships in the river is a state barge or shallop. Queen Anne was the last royal occupant of the palace.

# GUANIMYCIN

## SUSPENSION FORTE

for rapid and highly effective  
control of bacterial diarrhoeas

In Guanimycin Suspension Forte the combination of two proven antibacterials with differing modes of action reduces the risk of bacterial mutation to resistant organisms.

These two well-established antibacterials combined with a fully effective dose of light kaolin BP ensure:

- ☐ Rapid eradication of bacterial infection
- ☐ Rapid relief of unpleasant symptoms
- ☐ Rapid restoration of normal bowel function

Guanimycin Suspension Forte is a pleasant, fruit-flavoured, ready to use suspension with a low dose volume.

### PRESENTATION

Each 15 ml (adult dose) of Guanimycin Suspension Forte contains:

|  |        |
|--|--------|
| Dihydrostreptomycin sulphate BP 1958<br>(equivalent to 0.1975 g of base) | 0.25g  |
