To the Medical Profession

A synergetic combination
of BILE EXTRACT, YEAST,
and LACTIC FERMENTS,

MYCOLACTINE

for the treatment of
CONSTIPATION,
INTESTINAL STASIS, and
ALIMENTARY TOXÆMIAS.

THE ANGLO-FRENCH DRUG CO. LTD.
LONDON, W.C.1.

MYCOLACTINE—a preparation in tablet form, containing Bile Extract, Lactic Ferments and Yeast—gives very successful results in the treatment of Constipation, Intestinal Stasis and Ailmentary Toxæmias. The particular combination of the ingredients, their purity and synergy of action, make the product one of the most efficient of its type yet evolved for the regulation, education and disinfection of the bowels. Peristalsis and intestinal secretion are stimulated and with a properly adjusted dosage the stools become soft but formed.

The average adult dose, in obstinate and chronic cases, is one or two tablets before each of the three principal meals. The quantity, however, depends on the particular case and, frequently, it will be found that one or two tablets at night are sufficient to exert a mild laxative action.

MYCOLACTINE—does not produce griping or create a habit; when a normal action is secured the dose can gradually be decreased as the intestinal secretions resume their natural functioning.

- "I use Mycolactine extensively and think it most admirable in every way."
—M.D.,F.R.C.P.
- "The best preparation of its kind which I have yet met with; painless, speedy and satisfactory in its results; small and pleasant in dosage which is easily regulated."
—M.D.
- "Getting fine results with Mycolactine."—M.B.,C.M.
- "I and my family find it an admirable preparation, free of more than one objection that is to the disadvantage of most aperients."—M.D.
- "So far, my experience of Mycolactine is that it is admirably suited to its purpose."
—M.D.
- "I have tried Mycolactine on a woman with a life-long history of Constipation and got excellent results. Please send me by return a 500 bottle."—L.R.C.S., L.R.C.P.
- "Have had very good results in chronic cases of Intestinal Toxæmia."—M.B.,ChB.
- "I have had a paralysed condition of the bowel and a laparotomy and no aperients have been satisfactory, but since I have used Mycolactine the bowels have tried to act naturally."—M.R.C.S.,L.R.C.P.
