ASILONE®

Polymethylsiloxane

For Infants

DESCRIPTION

ASILONE For Infants is a formulation of ASILONE especially designed for the treatment of digestive disorders in young babies. At the recommended dosage the ingredients are harmless to babies even in the first few weeks of life, counter-acting excess acidity in the stomach and promoting the easy voiding of intestinal gas. ASILONE For Infants contains no drugs which have a central or systemic action.

USES

ASILONE For Infants is intended for the treatment of wind pains, "gripes", and regurgitation in infants.

DOSAGE

One 5ml. spoonful 3-4 times daily, before or during a feed. In windy colic it may be necessary to continue dosage for 24 hours before relief is achieved. ASILONE For Infants may be continued at this dosage for several weeks, but not for more than 48 hours without medical advice as symptoms may not be due to intestinal gas.

PRESENTATION

ASILONE For Infants is a white suspension with a flavour of blackcurrant. Each 5ml. spoonful contains the equivalent of:

- Polymethylsiloxane (Dimethicone B.P.C.) 25mg.
- Hydroxide Gel B.P. 84mg.
- Light Magnesium Oxide B.P. 14mg.
- Bottles of 100 ml.

ASILONE tablets each containing polymethylsiloxane 250 mg.
Cartons of 12 and 100.
ASILONE suspension, containing polymethylsiloxane 125 mg. in each 5 ml. Bottles of 300 ml.
ASILONE gel, containing polymethylsiloxane 125 mg. in each 5 ml. Bottles of 300 ml.
