IODATOL

Brand of Iodised Oil B.P.

THE IDEAL CONTRAST MEDIUM FOR X-RAY DIAGNOSIS

Iodatol is an iodine addition product of poppy-seed oil containing 40% of combined iodine; it conforms in every way with the specification laid down for Iodised Oil of the B.P. Addendum. Iodatol is employed as the routine method of investigating the cavities of the body radiographically.

As a contrast medium for the investigation of the bronchial tree, the Fallopian tubes and uterus, the paranasal sinuses, the spinal column, and for the exploration of abscesses and fistulæ, it is unsurpassed.
