MATERNITY AND CHILD WELFARE

STILL-BIRTHS.

3 still-births were registered under the Registration of Still-births (Scotland) Act, 1938 as having occurred within the Burgh, and of this 3, 2 were transferred out, and the probable cause of death of the remainder is shown in the accompanying table.

CAUSE OR PROBABLE CAUSE OF STILL-BIRTH.

Atelectasis, Prematurity.... 1

INFANT MORTALITY.

The number of deaths of children under one year was 36—21 males and 15 females—giving an infant mortality rate of 30, which compares with the figure of 23 for the whole of Scotland.

23 of the total deaths occurred in children under 4 weeks old

DEATHS OF CHILDREN UNDER ONE YEAR.

Year	Number of Deaths	Rate per 1,000 of Live Births
1954	38	33
1955	48	38
1956	43	34
1957	48	36
1958	32	23
1959	31	23
1960	44	32
1961	37	27
1962	45	32
1963	49	35
1964	41	32
1965	36	30

The chief causes of death of children under one year were:— Congenital malformations, 13; Birth Injury and Atelectasis, 8; Pneumonia, 7; Immaturity, 3; Meningococcal Infections, 1; Infections of the Newborn, 3.

DEATHS OF CHILDREN BETWEEN ONE AND FIVE YEARS.

Causes	Number of Deaths.		
Non-Meningococcal Meningitis	1
Disease of the Nervous System	1
Pneumonia	1
Nephritis and Nephrosis	1
Accidents in the Home.	1

MATERNAL MORTALITY.

There were no deaths attributable to puerperal causes.

The Table below indicates the figures for the past ten years.

1956	0	0.0
1957	2	1.9
1958	0	0.0
1959	1	0.75
1960	1	0.72
1961	0	0.0
1962	0	0.0
1963	0	0.0
1964	0	0.0
1965	0	0.0

LOCAL HEALTH AUTHORITY FUNCTIONS

CARE OF MOTHERS AND YOUNG CHILDREN.

All Child Welfare and Ante-and-Post-Natal Clinics are staffed by Local Health Authority Nursing Personnel, Bellshill Maternity Hospital supplying medical staff for Regional Hospital Board Ante-Natal and Post-Natal Clinics.

10,857 children attended the Child Welfare Clinics during the year and of this number 701 children born in 1965 attended the Clinics for the first time during the year.

An "At Risk" Register has been maintained during the year, the Health Visitors being responsible for the placing of names on the Register and a Medical Officer for assessing the children at intervals. At the end of the year there were 342 children on the Register all receiving special supervision.

Ascertainment of Deafness.

Elementary screening of cases of suspected deafness is carried out in Clinics and in the home by a Medical Officer and Health Visiting personnel who have been trained in these principles.

Welfare Foods.

Welfare Foods, i.e., National Dried Milk, Cod Liver Oil, Orange Juice and Vitamin Tablets are distributed daily from the Health Department, Main Street, and during Clinic Sessions at the other Clinics.

Issues in 1965 are as tabulated in the following table:—

	Nat. Dr. Milk (Tins)	Cod Liver Oil (Bottles)	A. & D. Tabs (Packets)	Orange Juice (Bottles)
January	432	306	54	1023
February	336	256	24	948
March	336	225	30	972
April	304	172	24	1018
May	412	246	24	1315
June	325	178	15	1164
July	410	162	26	1286
August	295	168	11	1099
September	260	198	22	999
October	321	365	35	1414
November	245	253	27	978
December	231	222	17	974
	<hr/> 3907	<hr/> 2751	<hr/> 309	<hr/> 13190

The uptake of the above items continues to fall except Orange Juice, issues of which are slightly increased.

MIDWIFERY.

Domiciliary full-time Midwifery Services obtain in the Burgh with an establishment of 4 Midwives who practice from their own homes.

All of the midwives have been trained in the use of Gas and Air Analgesia and Pethidine, and 4 sets of Minnitt Analgesia Apparatus have been available for use throughout the year. All the midwives have been trained in the administration of Trilene.

During the year 104 Maternity Outfits have been issued.

MIDWIVES (SCOTLAND) ACT, 1951.

No emergencies were attended by Medical Practitioners.

GENERAL REPORT ON THE WORKING OF THE ACT.

The Services under Section 23 of the National Health Service (Scotland) Act, 1947, have functioned satisfactorily during the year and there are no points of importance to remark on.

HEALTH VISITING.

9 Health Visitors were employed in the Service during the year. The Health Visitors staff the Child Welfare Clinics, the Ante-natal Clinics conducted by the Regional Hospital Board, and attend the Tuberculosis Sessions. They also staff, in rotation, the Artificial Sunlight Clinics held at the Health Department. For the purpose of Health Visiting the town is divided into districts for each of which one Health Visitor is responsible.

HOME NURSING.

This Service provided under Section 25 of the National Health Service (Scotland) Act, 1947, was fulfilled by contract with the Local Branch of the District Nursing Association until April when the Home Nursing Service became directly employed by the Burgh of Coatbridge. Seven full-time District Nurses were employed in the Coatbridge Area during the year. The following Table indicates the main type of cases treated by Home Nurses during the year, many of whom would have required hospital treatment except for the existence of this Service.

TABLE.

Accidents	29
Anaemia	158
Cancer	26
Cerebral Haemorrhage	39
Diabetes	14
Gynaecology	8
Varicose Ulcers	15
Rheumatism	12
Streptomycin	14
Senility	5
Miscellaneous	281

DOMESTIC HELP.

This Service, administered by the Welfare Department on behalf of the Health Department, was maintained to the Community during the year. As in previous years, the chief beneficiaries were the elderly of the Community.

HOME HELP SERVICE.

	HOME HELP TO HOUSEHOLDS FOR PERSONS					TOTAL
	Aged 65 or over on 1st visit in 1964	Aged under 65 on 1st visit in 1965

TOTAL	1	216	70.87	—

VACCINATION AND IMMUNISATION.

Facilities for vaccination against Smallpox and Immunisation against Diphtheria, Whooping Cough and Tetanus are available at the Child Welfare Clinics held in the Health Department, Main Street, at Townhead Clinic, Lomond Road, Kirkwood Clinic, Craighend Drive, and Rosehall Clinic, Whifflet, and a reminder in the form of a birthday card is sent to each child not immunised at his/her first birthday, while Health Visitors at their visits continue to stress the necessity of maintaining a high standard of immunisation amongst the population at risk. During the year 925 children were immunised against Diphtheria, etc., and 702 received maintenance inoculations, of these 769 and 647 were inoculated at the Welfare Centres.

385 persons received Primary Vaccination against smallpox during the year and of this number 307 received inoculations at the Child Welfare Clinics, while 203 persons received maintenance inoculations.

Age groupings are as tabulated in the following tables:—

PRIMARY VACCINATION OR IMMUNISATION.

Return for period 1st January, 1965 to 31st December, 1965.

YEAR OF BIRTH	Number who have completed a full course of primary vaccination or immunisation against—								
	Smallpox (a)			Diphtheria (b)	Tetanus (c)	Pertussis (d)	Diphtheria and Pertussis (e)	Diphtheria and Tetanus (f)	Pertussis Diphtheria and Tetanus (g)
	"Takes"	"No Takes"	"Not examined"						
1965	5	—	—	—	—	—	—	—	326
1964	131	6	25	—	—	—	—	5	351
1963	114	7	23	—	—	—	—	5	32
1962	21	1	4	—	—	—	—	3	21
1961	5	2	1	—	—	—	—	5	14
1960	7	1	1	—	—	—	—	61	17
1959	3	—	1	—	—	—	—	69	4
1958 or earlier	23	1	3	—	—	—	—	10	2

POLIOMELYTIS.

Vaccination against Poliomyelitis continued to be available at the Child Welfare Clinics and from General Practitioners.

During the year the oral type of vaccine was used exclusively, 881 persons completing a course of three doses and 612 receiving a fourth dose, and of these, 706 and 508 respectively were carried out by Local Authority Personnel.

At the end of the year approximately 52% of children born in 1964 had completed a course of immunisation against Poliomyelitis.

ARTIFICIAL SUNLIGHT CLINIC.

Two afternoon sessions of the Artificial Sunlight Clinic are held each week under the supervision of a Health Visitor. Patients attending these clinics are referred by the General Medical Practitioners, from the Child Welfare Centres or School Medical Clinics. During the year, 96 first visits and 1184 re-visits were made. Patients attended chiefly for rheumatic conditions, arthritis, fibrositis, general debility and sub-standard physical states.

EPILEPTICS AND SPASTICS.

Where Epileptics and Spastics come to the notice of the Health Department, the Health Visitor concerned maintains observation, depending on the individual case, the Welfare Department being introduced where necessary.

PREVENTION OF ILLNESS, CARE AND AFTER-CARE.

TUBERCULOSIS.

15 cases of respiratory and 1 case of non-respiratory tuberculosis were notified during the year, of which 14 and 1 respectively were confirmed.

The death rate from respiratory tuberculosis was 0.07 per thousand, which compares with the figure of 0.09 per thousand for 1964. the preliminary figure for the whole of Scotland being—0.06 per thousand.

The bed state remained satisfactory throughout the year, the waiting time being nil.

11 families in which one or more members were suffering from the disease were re-housed during the year.

A contact clinic was held twice per month throughout the year, the attendance being as follows:—

First Visits	103
Re-Visits	328

B.C.G. Vaccination, 1965.

(b) New born babies	—	—	—	—	—	—
(c) Students ...	59	41	49	36	49	35
(5) Others	—	2	—	2	—	—

CHIROPODY.

From January 1965 until August 1965 a morning and afternoon session was held on Mondays, Tuesdays, Thursdays and Fridays. On 30th August, 1965 a full time Chiropody Service was put into operation and a fully qualified Chiropodist was engaged to carry out this Clinic. Treatment is free and by appointment only.

During the year 2399 treatment were given, 512 males and 1887 females.

HEALTH EDUCATION.

The Scottish Council for Health Education continued to give valuable assistance during the year in the form of lectures, leaflets and pamphlets, while Health Visitors take every opportunity of stressing measures for the prevention of accidents, especially in the home.

VENEREAL DISEASE.

The Clinic at Coathill Hospital for the treatment of Venereal Disease ceased to function on 28th February, 1965. The Clinic is now held at Oak Lodge, Hamilton. Dr. Leslie E. Hamilton, Consultant Venereologist, has supplied the following information of the work of his Department so far as Coatbridge patients are concerned, for the year 1965.

NEW CASES.	MALES	FEMALES
Syphilis	-	-
Gonorrhoea	7	4
Non-specific Urethritis	-	-
Other venereal conditions	-	-
Non-venereal conditions	4	3
TOTAL ATTENDANCES		
New Cases	11	7
Total attendances at Oak Lodge	44	7

CONTROL OF INFECTIOUS DISEASES.

During the year 220 cases of infectious diseases (excluding tuberculosis) were notified. This figure shows a decrease of 18 on the figure for 1964, due to the drop in the number of cases of Cerebro-Spinal Fever and Dysentery notified throughout the year.

Details of the major incidence of infectious diseases are as follows:—

CEREBRO-SPINAL FEVER. 11 cases were notified, all of which were removed to hospital. 2 deaths occurred.

DYSENTERY. 8 cases were notified, all of which were removed to hospital. No deaths occurred.

PNEUMONIA. 180 cases were notified, all of which were removed to hospital. 19 deaths occurred.

SCARLET FEVER. 8 cases were notified, 5 being removed to hospital. No deaths occurred.

WHOOPING COUGH. 9 cases were notified, none of which were removed to hospital. No deaths occurred.

MENTAL HEALTH.

The undernoted tables give details of patients in or admitted to Hartwood Hospital during the year:—

Details of Informal Patients for year ended, 31-12-65.

	M.	F.	Total.
Resident at 31-12-64	70	36	106
Direct admissions since	42	58	100
Transferred from Detained Roll	3	4	7
	<hr/>	<hr/>	<hr/>
	115	98	213
Discharged since	38	56	94
Died	9	8	17
	<hr/>	<hr/>	<hr/>
Total at 31-12-65	68	34	102

Details of Detained Patients for year ended 31-12-65.

	M.	F.	Total.
Total at 31-12-64	29	3	32
Admissions since	7	9	16
	36	12	48
Discharged since	4	5	9
To Informal Roll	3	4	7
Died	0	1	1

The following table gives details of patients under Guardianship or Informal Care as at the end of 1965:—

(1)	Mental Defectives		Mentally ill	
	M.	F.	M.	F.
(2)	(3)	(4)	(5)	
1. No. of patients under statutory guardianship for whom the authority are "local health authority concerned" (whether resident in or outside the authority's area)	6	1	—	—
2. No. of patients included in 1. under the guardianship of the authority	1	—	—	—
3. No. of patients included in 1. resident outside the area of the authority	2	—	—	—
4. No. of persons in the area who are not under guardianship but are receiving regular visits from the authority's staff ...	81	68	2	4

The following table indicates the number of visits and types of case visited by Local Health Authority staff during the year:—

Visits in respect of	Medical Officers	Health Visitors	Mental Welfare Officers
(1)	(2)	(3)	(4)
1. Mental defectives under guardianship	9	15	30
2. Mental defectives under informal supervision	28	266	144
3. Mentally ill under guardianship	2	28	4
4. Mentally ill under informal care	1	3	18

The Senior Occupational Centre for Mental Defectives continues to function at Rosehall Institute, Coatbridge. This Centre, catering for both sexes, is open daily from Monday to Friday inclusive, from 10 a.m. until 3 p.m., the average daily attendance being 25.

WORK UNDER NURSERIES AND CHILD MINDERS' REGULATION ACT, 1948.

No applications were received and no Certificates are in force under this Act.

SCHOOL HEALTH SERVICE.

In the Burgh of Coatbridge, the School Health Services are administered and carried out by the Lanarkshire County Council in terms of their duties under the Education Act.

FOOD SUPPLY.

Details of the work done, with reference to the supply of milk ice cream, meat and other foods, are to be found in the Sanitary Inspector's Report. No medical examinations of Trade Employees were carried out under the Ice Cream (Scotland) Regulations, 1948.

FOOD HYGIENE.

Inspection of food premises was continued throughout the year and advice given where necessary by the Sanitary Inspector's Staff. Information re the proper conditions for Food Hygiene was brought to the notice of the public by means of posters, etc., during the year.

FOOD POISONING.

No outbreak of food poisoning was reported during the year.

NUTRITION.

Health Visitors, during home visits and Clinics, continued to be the chief medium for the spread of knowledge on this subject. Their efforts have been supplemented by posters, pamphlets and food demonstrations.

NATIONAL ASSISTANCE ACT.

The Local Authority maintains three homes for elderly people at Merrystone House, Woodside House and Kenilworth House. No special medical supervision is maintained by the Local Authority, each resident consulting his/her own doctor as required.

There are no other homes in the area under Section 37 of the Act. No action was necessary under Sections 47, 48 or 50 of the Act.

NURSING HOMES REGISTRATION. (SCOTLAND) ACT, 1938.

No action was necessary under this Act and no Certificates are in force.

GENERAL SANITATION, WATER SUPPLY.

Water is supplied to the Burgh by the Airdrie, Coatbridge and District Water Board. The supply of water has been ample for the needs of the town. Periodic examination of the water has proved it fit at all times for human consumption.

PUBLIC BATHS.

Samples of water taken at regular intervals throughout the year have all proved satisfactory.

SUPERANNUATION.

86 persons, 51 males and 35 females, were medically examined for the purpose of Superannuation.

NOISE ABATEMENT.

No action was taken under this Act during the year.

Child Welfare Clinics in Local Authority Premises.

		Number of children who attended once or more often during the year				Number of sessions held by:—

HOSPITAL ADMISSIONS AND DISCHARGES (RESPIRATORY TUBERCULOSIS).

IV.—Number of patients admitted to, discharged from or dying in Tuberculosis Hospitals, Sanatoria or wards in other Hospitals reserved for the treatment of the tuberculous.

AGE GROUPS	SEX	In Hospital on January 1	Admitted during year	Discharged during year	Died in Hospital	In Hospital on December 31
Under 15 years	Male	—	2	2	—	—
	Female	—	1	1	—	—
15-44	Male	7	8	10	2	3
	Female	3	7	6	—	4
45 and over	Male	8	15	10	5	8
	Female	1	3	1	2	1
Total	19	36	30	9	16

V.—Number of patients dying from respiratory tuberculosis in Hospital accommodation other than that reserved for tuberculous patients Nil.

PART III.—ANALYSIS OF TUBERCULOSIS DEATHS.

VIII.—Number of persons who died from tuberculosis in the area during the year with the period elapsing between notification or intimation and death.

	RESPIRATORY		NON-RESPIRATORY	
	Males	Females	Males	Females
Number of Persons who died from Tuberculosis of whom: Not notified or notified only at or after death	—	—	—	—
Notified less than one month before death	—	—	—	—
Notified from one to 3 months before death	1	—	—	—
Notified from 3 to 6 months before death	—	—	—	—
Notified from 6 to 12 months before death	—	—	—	—
Notified from 1 to 2 years before death	1	—	—	—
Notified over 2 years before death	2	—	—	—
TOTAL	4	—	—	—

PART IV.—THE TUBERCULOSIS REGISTER.

IX.—Return of the number of persons resident in the area at 31st December, 1965, who were known to be suffering from tuberculosis.

(Only cases in which a diagnosis of tuberculosis has been confirmed should be included. Persons in Sanatoria, etc., should be included in the figures for the area in which they have their home residence).

Form	Sex	Under 1	1- 5	5- 15	15- 25	25- 35	35- 45	45- 55	55- 65	65 Upwards	TOTAL
1. Respiratory	Males	—	2	9	32	22	42	43	25	2	177
	Females	—	2	3	46	31	12	13	—	3	110
2. Non- Respiratory	Males	—	1	3	9	5	4	1	1	2	26
	Females	—	—	3	2	14	3	4	—	—	26

INFECTIOUS DISEASES.

Return of Cases (excluding Tuberculosis) notified from 1st January, 1965, to 31st December, 1965.
Number of Cases coming to the knowledge of the Medical Officer of Health
and accepted by him as suffering from the stated disease.

DISEASE	At all ages.	Under 1	1 and under 5	5 and under 15	15 and under 25	25 and under 35	35 and under 45	45 and under 65	65 and upwards	Cases removed to hospital	Cases not re-movd to hospital
