PREFACE.

To the County Council
of the County of Dumbarton.

LADIES AND GENTLEMEN,

I herewith submit the Nineteenth Annual Report on the Medical Inspection of Children attending schools in the County, which has been compiled by the Medical Officers.

This report is the last one to be issued regarding work done under the Education Authority. Although the actual transference took place just before the end of the School Year, it was arranged that the alteration in the scheme, whereby the Medical Officer of Health for the Burgh of Dumbarton is to come in as one of the School Medical Officers, should not take effect until the schools re-opened in August.

Although, as will be seen from the Report, the Medical Inspection and Treatment work has gone on smoothly during the year, the scheme cannot be considered to be in any way complete. The following are certain points worthy of consideration :—

(1) The dental service might be improved by a further whole-time appointment to take the place of the existing part-time appointment in the eastern area.

(2) Provision of the Orthopaedic Clinics agreed to by the Education Authority ought to be expedited.

(3) The provision of a Health Centre and Clinic at Kirkintilloch, to take the place of the inadequate accommodation at present in use, should be hurried on.

(4) The whole question of the Oculist services might be considered and the advantages of a whole-time appointment carefully gone into.

The Report now submitted does not contain any special features requiring attention, but is a careful record of work accomplished, and conditions found.

I am,

Your obedient Servant,

THOMAS LAUDER THOMSON, M.D., D.P.H.

5.—Sanitary Condition of Schools.

During the year the lavatories at several schools were completely remodelled. The work included taking out all defective woodwork, and the removal of the old and obsolete sanitary fittings, which have been replaced by a modern type of wash down closet. The new installations are proving very satisfactory, and when the remainder of this work has been done at various other buildings the lavatory accommodation at the schools in Dumbartonshire will be as sanitary and modern as it is possible to make them.

The lavatories at the following schools were done during the year 1929-30 :—

Cardross Public School	...	Boys' Lavatories.
Ardoch Bridge Do.	...	Boys' and Girls' Lavatories.
Milngavie R.C. Do.	...	Do. Do.
Milngavie Public Do.	...	Boys' Lavatories.

The wash hand basins in the cloakrooms at Knoxland and West Bridgend Public Schools, Dumbarton, were found to be most unsatisfactory, and the old galvanised iron fittings have been replaced by modern enamelled vitreous fireclay basins.

At many of the schools the old type of iron Kennedy drinking wells are still in use ; and the Committee have been

replacing these from time to time by modern hygienic drinking fountains. During the Vacation Period in 1929 new fountains were supplied and erected at the following schools :—

Bonhill Public School,	2 Fountains.
Renton Do.	2 Fountains.
Knoxland Do.	1 Fountain.
Croy R.C. School	2 Fountains.

When visiting the schools in Cumbernauld Area, the attention of the Property Committee was drawn to the lack of suitable lavatory accommodation for the Staff in Cumbernauld Public School, and part of one large corridor was partitioned off to provide a W.C. and Cloakroom with wash hand basin.

The attention of the Committee was also drawn to the fact that at Drumglass Public School the only water available was from one drinking well in the playground. Such an arrangement was most unsatisfactory from every point of view, and it was decided to instal a sink in each of the cloakrooms with the necessary water supply.

The large and important question of cross ventilation in many of the older buildings has been engaging the attention of the Committee for some time, and during the Summer Vacation the opportunity was taken to provide opening parts and hopper sashes in the windows of several schools.

A considerable amount of painter work has again been done, and all outside lavatories, heating chambers, stores and outhouses have been limewashed as in former years.

6.—A, B, C, D, and E.—Organisation and Administration, etc., and Co-ordination with Public Health Departments.

For outlines of organisation and administration see Reports 1914-1915, pages 7-8; and 1922-23, pages 7-8. See also History of the Movement, Report 1928-1929, pages 44-54.

Mr Allister Finlayson resigned at the end of November, 1929, and Mr Benjamin M'Phee was appointed in his place.

*It has been felt that the Anthropometric Standard is not satisfactory, because it was based on an insufficient number of observations. A County of Dunbar Standard has therefore been arrived at by combining and averaging the figures in previous Annual Reports for a number of years back.

The following table shows the number of observations on which the County Standard is based—taken from Annual Reports 1915-20 to 1926-27.
