IMPROVEMENTS TO SCHOOLS

During the year 1967-68 apart from several new schools being completed and put into use Ardoch Bridge Primary was replaced thus providing kitchen premises where previously the meals were transported from a central kitchen, a dining room where previously the children dined at their desks and modern inside toilets with washing facilities and space heating. A new extension has been built at Hartfield Sec. School when all the outside toilets were replaced with new modern suites.

The outside toilets at St. Mary's Sec. School, Duntocher have been replaced during the year with new suites and a similar operation is at present proceeding at St. Patrick's High School in Dumbarton.

At the following schools additional hitted classroom accommodation was provided which in each case includes additional toilet and ablution facilities:—

St. Mary's Primary School, Alexandria
 St. Peter's Primary School, Dumbarton
 Dalmuir Sec. School, Dalmuir
 St. Eunan's Primary School, Clydebank
 Goldenhill Primary School, Hardgate
 Killermont Primary School, Bearsden

At Townhead Sec. School a small extension providing new accommodation for the entire staff has been carried out and is now in use.

The opening of Lenzie Moss Primary School last year reduced temporarily the roll at Lenzie Primary School and advantage was taken this

year to increase the size of the classrooms and generally refurnish the entire school at a cost of approximately £17,000.

Under the revenue account 20 schools were entirely repainted inside and outside at a cost of approximately £50,000. In 8 school kitchens earthenware sinks and galvanised iron sterilizing sinks were replaced with stainless steel units which have integral drip boards at a cost of £3,250 and in 12 schools additional sinks and wash basins were provided to the value of £1,530.

In addition to the foregoing, many other minor repairs and replacements have been carried out as and when required, thus maintaining the properties in a satisfactory sanitary condition.

PARENTS PRESENT AT INSPECTION

<i>School Management Area</i>	<i>No. of Children Examined</i>	<i>No. of Parents Present at Routine Examinations</i>	<i>Per Cent.</i>
Cumbernauld	321	233	72.58

Vale of Leven	423	356	84.16
Helensburgh	196	107	59.59
Total	3831	2263	59.07

GENERAL REVIEW

Routine inspection was carried out on 3831 children—

The number of children examined non-routinely, i.e., at clinics mainly, was 588.

2263 parents were present at the routine examinations.

PHYSICAL CONDITION

The percentage of children found to be free from all defects on routine school examination was 73.5% as against the previous session's figure of 62.2%. The percentage of children free from defects in the different age groups was as follows:

Entrants (<i>5yrs. of age</i>)	72.0%
Second Age Group (<i>13 yrs. of age</i>)	76.7%

81% of the children examined had already been immunised against diphtheria.

DEFECTS AND DISEASES

Total No. of boys examined (all areas)	1871
Total No. of girls examined (all areas)	1960
Total	<hr/> 3831 <hr/>

Clothing:

During the session one child was found to have unsatisfactory clothing.

Footwear:

No children were found to have unsatisfactory footwear.

Uncleanliness:

0.8% of the children *systematically* examined were found to be in a verminous condition of head and/or body. The numbers were four boys and thirty girls.

Skin Diseases:

Ringworm: One case ringworm of the body was discovered.

Impetigo: Two cases of impetigo of the head were discovered during the session and no cases of impetigo of the body.

Scabies: Three children were found to be suffering from scabies during the year.

Nutrition:

Seventy-three of the children examined were found to be suffering from defective nutrition. Sixty-eight of them were classified as 'slightly defective'.

SCHOOL DENTAL SERVICE

Report by SHIELA S. STEWART, Chief Dental Officer

Mr. Cassidy retired on 9.9.67 after 28 years' service with the County of Dunbarton during which time he helped to build up the dental service as it now stands. We wish him a long and happy retirement in Ireland.

The Dental Health Campaign took place in the early part of the session with dental packs being distributed to five year old children in schools throughout the County. The campaign, as usual, would appear to have been a success and was carried out with every co-operation from Dental

Officers and the teachers of the children concerned. It is imperative that we impress upon youngsters as soon as possible the importance of oral hygiene and choice of diet in helping to prevent early caries and subsequently to maintain a healthy dentition in later years.

In the field of preventive dentistry the school dental service has much to offer and in future years if staffing difficulties can be overcome, it should be able to do a great deal more.

SPEECH DEPARTMENT ANNUAL REPORT SESSION 1967-68

*Report by Miss N. M. MAXWELL, Chief Therapist and in charge of the
Departments of Speech Therapy and Speech Training.*

During the session the staff has been maintained at reasonable strength in both Therapy and Speech Training. At no time have we attained full coverage for the needs of this expanding County, but, compared with surrounding areas and their services, we have had a fair share. Coping with the swing in population from one part to another presents problems from time to time. For example, at present we are depleted on both sides in the Helensburgh and Balloch areas. On the other hand, some of the difficulties in the Cumbernauld district are being alleviated by the influx of more professional people. We now have two Speech Therapists and two teachers of Speech Training in residence there.

Except for the shortage in the two areas already mentioned, our commitments to schools and centres have been fulfilled, and waiting lists kept to a minimum. (See statistics attached). In October Mrs. Neilson joined the staff on a part-time basis, and took up duties in Milngavie. In November Mrs. Farrell left the Helensburgh and Dumbarton centres to join her husband who is now working in Edinburgh. In December we lost Mrs. Thomson from the Balloch and Faifley districts. She resigned for domestic reasons. Part of the work was continued by Miss Chambers who joined the staff on March 3rd 1968. Mrs. Parker came to work in the Cumbernauld area on 25th March, where Mrs. Wilson had been endeavouring to cover both that part and Kirkintilloch. This helped greatly to reduce the waiting lists of children flowing in to the New Town. In May Mrs. Cunningham resigned from her part-time duties at the Hillfoot centre. She and her doctor are departing to West Africa. We wish them well in their new venture. At this time also we lost Mrs. Miller from her part-time duties at Gavinburn. She resigned for domestic reasons. On June 10th we acquired the services of Mrs. Carter, on a full-time basis.

She has come to reside in Cumbernuld. We are in urgent need of Therapists to serve especially in the Balloch and Alexandria districts, but so far, there have been no applications for the advertised posts.

As in previous years, Speech Therapy students were admitted to our Centres for Clinical training, we had seventeen in all this session, nine of whom were in the Final Year preparing for the Diploma. One examination took place in Goldenhill Medical Centre. We have also had two very promising second year students, who belong to our County, so perhaps we may look forward to an easing of the shortage by another year.

In November a meeting with the parents of handicapped children was held in Kildrum Medical Centre. I talked to them about Speech development in these children, and advised on home methods and routine to stimulate speech, after which Mrs. Wilson and I answered questions and tried to help with the various problems. Mrs. Wilson was appointed to a senior post last October.

In December the Therapists met the Psychologists, when procedures for children common to both were discussed. We find such meetings of great value to us all.

All children admitted to treatment are now referred for routine hearing tests. Individual testing takes time, but Mrs. Keith makes the results available with the least possible delay, and also gives access to the 'sweep test' results. These are most helpful and the information of great importance to the Therapist. There is no doubt that, a knowledge of the acuity of hearing is a valuable asset. Recently an Ascertainment Committee was formed to review children suffering from hearing loss, and we have been instructed to discontinue treatment in a number of cases meantime. Approximately 76 children are affected and we hope that assessments and decisions will not be long delayed.

Throughout treatment close contact is maintained with parents (see Parent Interviews in attached statistics) and with the allied services. The chief Medical Officer continues to accommodate the Therapists in the various Medical Centres, and his staff are ever willing to carry out medical examinations and give advice on request. We are much indebted to the School Medical Officers and Health Visitors for early referrals and helpful reports. We are also fortunate in having a valuable liaison the E.N.T. Specialists who refer those who require post operative therapy, and advise on cases of specific difficulty. Dr. McAllister continues to act as Honorary Consultant on Speech Therapy problems.

During the past year, 3 sessions per week have been allocated to the hospital service. Owing to re-arrangements at the Vale of Leven Hospital, the work has been carried out at the Joint and Blawarthill Hospitals. Adults residing in the County have been referred to Moss Cottage.

Thirty-two schools have the Therapist in their particular area visiting

one day per week to treat on the premises.

On the Speech Training side we have maintained sufficient staff to service 38 Primary Schools on a basis of one day per week. The syllabus was designed to cover age groups at II IV, IV and VII stages. In the larger primaries, after consultation with H.M.L., it was found expedient to discontinue stage II in order to cover all sections of the upper grades. Assessments of oral ability are made for all sections of Primary VII, and will be made available to the Headmasters and Speech Training teachers in the Secondary Schools to which these pupils will go in the Autumn. Nine Secondary Schools have been supplied this session, and in two of the largest ones, two days per week were allocated. The work is carried out in conjunction with the English Department for the most part, but sections from Commercial Departments and school leavers are included in the programme.

We lost Miss Cardy from the staff in October. She has decided to take a Nursing course. One of our former teachers, Mrs. Scanlon, returning from Canada for one year, came to replace her. Now she has gone back to continue her work abroad, and our good wishes go with her. Mrs. Ward joined the staff in February on a part-time basis, and will take over some of these duties. Miss Bryce came to assist in the Cumbernauld Area last August, but had to give up in April owing to domestic difficulties. We expect one new member to join the staff in August, and we extend a warm welcome.

In addition to carrying out the prescribed syllabus, speech and drama projects were again undertaken. Two inter-schools drama performances were given one in the Clydebank Area, with seven schools taking part, and one for the first time in Cumbernauld with six schools presenting items. This project always arouses great enthusiasm, not only in the schools but among the parents who turn out in large numbers to support them. The New Town was no exception. Between 240 and 260 children took part on each occasion. The Children's Own Travelling Theatre has gone out eleven times to neighbouring schools, including a round of Christmas Plays, and performances specially prepared to suit the children in the Occupational Centre at Auchentoshan, and those in Hartfield School for the Deaf. Visits were made to three of the Country Schools which were much appreciated as was evident in a generous gesture from one of the hotels on Loch Lomondside on behalf of the parents. The performers were given refreshments of soft drinks, crisps etc. at Inverbeg. This project could not be carried out without the valuable co-operation of the Heads of the schools concerned, and of our Transport Department. I would express our gratitude to them.

Mr. Murray Allan is constantly directing and advising on the work of the dual department, and we gratefully acknowledge this support, and also

the assistance so willingly given by the clerical staff at County Buildings.

The combined staff works zealously and in such harmony that the children benefit greatly, and their efforts enjoy a good measure of success.

SPECIAL SCHOOLS AND CLASSES

(a) SPECIAL SCHOOLS

Auchentoshan School

This school caters for mentally handicapped, physically handicapped and myopic pupils in the Western portion of the County. At the close of Session 1967/68 the numbers of pupils were:—Mentally Handicapped—163; Physically Handicapped—19; Myopic—13.

Auchentoshan Occupational Centre

There were 69 pupils on the roll of this centre.

Kildrum Occupational Centre

There were 23 pupils on the roll of this centre.

Elmwood School

There were 8 deaf or partially deaf pupils on the roll of this school.

(b) SPECIAL CLASSES

For mentally handicapped pupils—Lairdsland School, Kirkintilloch, with 93 on the roll (4 classes).

MILK-IN-SCHOOLS SCHEME

The average number of pupils taking milk in schools daily during Session 1967/68 was 35,455 (approximately 87% of the roll).

ULTRA-VIOLET LIGHT TREATMENT

The following are details of the work done at Dumbarton, Clydebank, Kirkintilloch, Bearsden, Alexandria, Helensburgh, Croy, Milngavie and Goldenhill Clinics during the year.

Number of patients treated	28
Total number of attendances	658

Classification	Entrants		Second Age-Group 13 years of age		Total	
	Number of Children	Percentage of the Children Examined in this Group	Number of Children	Percentage of the Children Examined in this Group	Number of Children	Percentage of the Children Examined at Systematic Medical Examina- tions
I.—Children free from Defects	1897	72.04	919	76.71	2816	73.50
II.—Children (otherwise free from defects) who suffer from—						
(a) Defective vision not worse than 6/12 in the better eye with or without glasses	29	1.10	53	4.42	82	2.14
(b) Conditions of the Mouth and Teeth requiring treatment	22	0.83	35	2.92	57	1.48
(c) Both (a) and (b)	16	0.60	5	0.41	21	0.54
Total	67	2.54	93	7.76	160	4.17
III.—Children suffering from Ailments (other than those mentioned in II) from which complete recovery is expected within a few weeks	256	9.72	97	8.09	353	9.21
IV.—Children suffering from (or suspected to be suffering from) defect less remediable than defects specified in II and III, distinguishing cases—						
(a) Where complete cure or restoration of function (in the case of eye defects full correction) is considered possible	361	13.71	67	5.59	428	11.17
(b) Where improvement only is considered possible, e.g., without complete restoration of function	52	1.97	22	1.83	74	1.93
Total	413	15.68	89	7.42	502	13.10
Total Number of Children Examined	2633	—	1198	—	3831	—

TABLE IV.

RETURN OF ALL EXCEPTIONAL CHILDREN OF SCHOOL AGE IN THIS AREA.

Disability	At Ordinary School	At Special Schools or Classes	At No School or Institutions	Total
1. Blind	—	11	1	12
2. (a) Refractive errors in which the curriculum of an ordinary school would adversely affect the eye condition	—	8	—	8
(b) Other conditions of the eye, e.g., cataract, ulceration, etc., which render the child unable to read ordinary school books or to see well enough to be taught in an ordinary school	—	4	—	4
3. Deaf—Grade I	—	—	—	—
Grade IIA	—	—	—	—
Grade IIB	1	9	—	10
Grade III	—	9	—	9
4. Defective Speech:—				
(a) Defects of articulation requiring special educational measures	—	1	—	1
(b) Stammering requiring special educational measures	—	—	—	—
5. Mentally Defective (Children between 5 and 16 years)				
(a) Educable (I.Q. approx. 50-70)	—	151	—	151
(b) Ineducable (I.Q. generally less than 50)	—	22	4	26
6. Epilepsy:—				
(a) Mild an occasional	5	1	—	6
(b) Severe (suitable for care in a residential school)	—	1	—	1
7. Physically Defective (Children between 5 and 16 years):—				
(a) Non-pulmonary tuberculosis (Excluding cervical glands) ..	—	—	—	—
(b) General orthopaedic conditions	8	7	—	15
(c) Organic heart disease	2	2	1	5
(d) Other causes of ill health	3	20	3	26
8. Multiple Defects:—				
(a) Mental Handicap—Spasticity	—	10	5	15
(b) " " Epilepsy	—	3	4	7
(c) " " Polio	—	1	—	1

SYSTEMATIC EXAMINATIONS

The following tables were supplied by the Scottish Home and Health Department from information given to them by this Authority on the new record card introduced at the beginning of this school year by the Government. Because of the very short notice and because our schools programme had already been arranged, the altered system of recording data was not put into operation until fairly well on in the school session and as a result this report contains tables for part of the year in the old style (pages 14, 20 and 21) and for the remainder in the new 'computerised' format (pages 33, 34 and 35). With regard to these latter tables it should be noted that in some cases the results are expressed as a rate per 100,000 children examined and the total of examinations recorded under the new system was only 3,640. One therefore has to take this factor into consideration when interpreting the results given.
