A photograph of a man's torso and head, showing a large breast lump on his chest. The man is looking directly at the camera with a neutral expression. The lighting is dramatic, highlighting the texture of his skin and the size of the lump.

WHERE TO TAKE AN HIV TEST IN NORTH LONDON

BLOOD TESTS FOR HIV are available from all sexual health (GUM) clinics. All the clinics listed are open (unless otherwise stated) from Monday to Friday. Some have walk-in sessions, but it is usually necessary to make an appointment. The results of an HIV test are generally available within one week. But at some centres on certain days, you can take a test in the morning and get the result in the afternoon. Same-day testing is by appointment only.
