**FANCY YOUR CHANCES?**

**Now guess why this guy won't  
be telling you he has HIV?**

My HIV status is too personal to share with someone who's not my partner. I don't want to spoil the moment. I don't want to be killed. I want to have hot sex. He must know that most people here are +ve. I'm sure he's guessed that I'm positive. IT'S NOT GOING TO MAKE ANY DIFFERENCE I'm pretty sure that he'll be HIV positive to find out too, but I don't want that I'm wrong. We are probably going to have safe sex anyway, so why bother? I'm not planning on fucking so there's no need to say. IT'S NOT THE APPROPRIATE TIME OR PLACE TO TALK ABOUT IT It's not at the top of my list of things to say about myself. People come here to get laid, not to get serious. It's not the right situation to tell him. I'm not going to be +ve

**WE'LL PROBABLY HAVE SAFE SEX SO THERE'S NO NEED TO SAY I'M HIV+**

**There are lots of reasons why he may not say that he's HIV positive before sex. This is just one.**
