AIDS/HIV: FACTS

● **AIDS/HIV FACTS**

To act against the widespread myths about AIDS, the London Strategic Policy Unit and Photo Co-op have produced a vital exhibition on AIDS/HIV for local authorities, youth and community groups, public libraries, community centres and other organisations interested in education on this increasingly important subject.

● **AIDS/HIV FACTS**

Meets the need for clear-sighted information in both public and specialist settings. Through a series of images and text, these panels educate and reassure – avoiding the traps of sensationalism or overwhelming the reader with technical details.

● **AIDS/HIV FACTS**

Is more than just facts, it presents a view on the seriousness of the spread of HIV, and why the 'AIDS panic' is unjustified. It deals with discrimination, drug addiction, safer sex, and health and safety issues without offence, but without coyness.

● **AIDS/HIV FACTS**

Is available in a pack of ten A2 (420mm x 590mm) lightweight exhibition panels. Each one is covered in a tough clear plastic and is suitable for outdoor and indoor use.

**The exhibition is free to hire.
