The Wellcome Centre for Medical Science

**AIDS EDUCATION IN SCHOOLS
THE WAY FORWARD**

The Wellcome Trust, 183 Euston Road, London, NW1 2BE

8th May 1993

The Association for Science Education

With Support from the British Medical Association

AIDS EDUCATION IN SCHOOLS
THE WAY FORWARD

A one-day event devoted to helping schools to address their statutory requirements:

" ... Pupils should extend their studies of the ways in which the healthy functioning of the human body may be affected by diet, lifestyle, bacteria and viruses (including Human Immunodeficiency Virus (HIV)), ... and understand the need to have a responsible attitude to sexual behaviour."

(National Curriculum Science Orders, Key Stage 3 Programme of Study).

- A packed programme designed to address the needs of everyone involved in AIDS education in schools.
- Plenty of opportunity to question experts, compare notes with colleagues and examine resources.
- Refreshments, lunch, drinks reception and take-away package containing teaching resources.
- The Conference is being subsidised by the Wellcome Centre for Medical Science. Registration fees have therefore been kept to a minimum.

AIDS EDUCATION IN SCHOOLS
THE WAY FORWARD

Programme

8 May 1993

Chair for morning session:

The Baroness Jay

Registration and coffee0830 - 0920

Welcoming address0920 - 0930

Eric Forth MP

183 Euston Road, London NW1 2BE**

**AIDS EDUCATION IN SCHOOLS
THE WAY FORWARD**

The Wellcome Centre for Medical Science represents a major new initiative by the Wellcome Trust to provide in-

depth support for biomedical research in the UK. With a target audience ranging from government and the media to the scientific community and schools - as well as the general public - the Centre offers facilities including:

- 'Science for Life': a permanent exhibition on modern medical science
- An Information Service: focusing on biomedical research policy, funding and the public understanding of science
- A Scientific Meetings Programme: aimed at both scientists and the public.

The British Medical Association (BMA) is a professional organisation representing all doctors in the UK, and with the aim 'to

promote the medical and allied sciences and maintain the honour and interests of the medical profession'. The BMA Board of Science and Education supports this in a number of ways:

- Provides an interface between the profession, the government and the public
- Undertakes research studies on behalf of the BMA

**AIDS EDUCATION IN SCHOOLS
THE WAY FORWARD**

- Assists in producing new policies covering a wide range of public health issues such as alcohol, road safety, smoking, nutrition, pesticides etc.
- Has specialised in AIDS/HIV education for teachers, health care professionals and the public
- Publishes a wide variety of reports on medical science and health issues.

The ASE represents teachers, technicians, industrialists and others contributing to science education, with a membership of over 23,000. It promotes, supports and develops science education from primary through to tertiary levels. In particular, ASE:

- 
- Provides a national voice for science education
 - Organises an annual meeting attended by over 5000, teachers
 - Encourages, initiates and promotes curriculum development projects in science
 - Promotes better in-service education through its own expanding meeting and conference programme and through the validation of courses provided by others
 - Publishes a wide variety of journals, newsletters and occasional publications.
