HIV QUICKTEST results in an hour

Free ● Confidential ● Pre and post counselling

No appointment needed ● Free condoms available

CHOOSE RIGHT! ● LIVE RIGHT! ● LIVE LONGER!

Free ● Confidential ● Pre and post counselling ●

WHY test?

Having the test can help you to make a fresh start in your life and allow you to make clear decisions about your future. You will be offered pre-test counselling to help you make a decision whether you need to have an HIV test.

HOW long does the test take?

Waiting for an HIV test can be worrying and stress you up. Dandaro Project has come up with a remedy for your fears. We provide an HIV Quicktest that gives you results within an hour.

QUICKTEST ● GIVES YOU RESULTS IN AN HOUR

No appointment needed ● Free condoms available

WHAT if I am diagnosed HIV positive?

Post counselling will give you the opportunity to discuss your feelings and support will be given to enable you to decide what to do next. Whether you are HIV positive or negative you can still control what to do next. Being HIV positive does not mean you have AIDS, and medication can help boost your immune system and enable you to live longer.

This is a confidential service which means that without your permission no-one will know your result.

CHOOSE RIGHT! ● LIVE RIGHT! ● LIVE LONGER!
