HEALTH
first

Beautiful thang¹⁸

Being young and gay can be great. You may be experiencing new freedom that you have never had before, doing what you want, when you want and sleeping with whom you choose. Enjoy your youth, but remember that it is no protection from HIV. Safer sex is vital, whether you have HIV or not.

Using an appropriate condom when you are screwing
is the most reliable way to prevent getting or passing on HIV and other sexually transmitted diseases.

Staying safe can also mean staying healthy!

Use extra strong condoms with plenty of water-based lubricant for screwing.

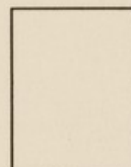

Independent testing has shown that suitable condoms include Durex Ultra Strong, Mates Superstrong, HT Specials, SafeGuard Forte, Boys Own, Duo and Mondos Yantra.
