P-P-P-Pick up a P-P-P-Postcard ...

Read it, think about it and make your mind up what you're going to do.

Great.

But what about your mates who didn't pick up the card? And that guy you shagged who obviously wasn't too clued up?

Safer sex is something that gay men invented. The best education in the epidemic is the stuff we've done for ourselves. And the best of that isn't what we do when we're working or volunteering for organisations - it's us talking to, encouraging and supporting our friends. Doing your bit isn't just about putting money in collecting tins.

So if you learn - or if you already know - things that have made you think, question or change your behaviour, don't keep it to yourself. Use your influence, talk to your friends, shags and partners. Pass on bits of information - we can all make a difference.

P-P-P-Pass it on.
