Remember...

Open the packet carefully to avoid damaging the condom.

Hold the condom by the test or closed end,
squeezing out air to make room for the cum.

Roll the condom right down your (or his) cock when it's hard.

Use plenty of water-based lubricant on the condom and up his arse.

Check the condom's still okay while you're fucking.

Hold onto the bottom of the condom
so that it doesn't slip off as you pull out.
