Durex easy-on condoms are now shaped to be easier to put on and to provide a better fit and feel during lovemaking.

Durex Extra Safe™ spermicidally lubricated condoms provide extra reassurance against the risk of unplanned pregnancy and sexually transmitted infections.

Please read the instruction leaflet carefully. Use a condom only once. Non-vaginal use of condoms may increase the risk of them slipping or being damaged. No method of contraception can provide 100% protection against pregnancy, HIV or sexually transmitted infections. Dermatologically tested.

Transparent, shaped, teat-ended, natural rubber latex condoms with a spermicidal lubricant, containing nonoxynol 9. Nominal width: 54mm.

Durex, Extra Safe and the Durex Seal of Quality device are trade marks of the SSL group.

**Caution: Condoms lubricated with Nonoxynol-9 are for vaginal use only and not for frequent multiple daily use.**
