how to use a condom...

1. Check the expiry date. Open carefully. Don't bite the packet.

2. Hold condom by teat or closed end. Pull back foreskin. Roll condom over cock head, squeezing air out of teat end to make room for cum.

3. Unroll condom to the base of your cock. Add extra lube to the outside of the condom and up his arse. Check condom is in place while fucking.

4. After you cum, hold condom and pull out while still hard. Bin it, don't flush it.
