how to use a condom...

1. Check the expiry date. Open carefully. Don't bite the packet.

2. Hold condom by test or closed end. Pull back foreskin. Roll condom over cock head, squeezing air out of test end to make room for cum.

3. Unroll condom to the base of your cock. Add extra lube to the outside of the condom and up his arse. Check condom is in place while fucking.

4. After you cum, hold condom and pull out while still hard. Bin it, don't flush it.

Freedom's packs are provided free for you, for when you're out and you need condoms and lube in a hurry. Please buy your own regular supplies and only take Freedom's packs when you really need them.
