Remember...

Open the packet carefully to avoid damaging the condom. Hold the condom by the teat or closed end (fig. a), squeezing out air to make room for the cum. Roll the condom right down your (or his) cock when it is hard (fig. b). Use plenty of water-based lubricant on the condom and up his arse. Check the condom's still OK while you are fucking. Hold onto the base of the condom (fig. c) so that it doesn't slip off as you pull out.

This pack was put together by RS Health. We are a gay men's health charity distributing over half a million free Rubberstuffers packs a year on the gay scene in London and running initiatives to improve your health and your lives. You can help by:

- *Thinking about the sex you have and how you can make it safer*
- *Thinking about why you take risks and how you can reduce these*
- *Making a donation to help pay for the work that we do*

We depend on your support.

To find out more or to make a donation call 0171 436 5353 or visit us at:
