## Are you **spaced** out?

When you first come out, the gay scene can seem really exciting and you might be tempted to go out a lot. Going out on the gay scene is a good way of meeting other people, but there are also other ways, like gay social or sports groups. More details of groups can be found by looking in the gay press, the gay section of Time Out or ringing Lesbian and Gay Switchboard T: 0171 837 7324. If you go out drinking alcohol or taking drugs a lot of the time it will have an effect on your body - not to mention your money. And if you are out of it most of the time then you might end up having sex you don't really want. If you have any questions about drink or drugs, you could talk this over with a health adviser at Axis. If you don't want to discuss this at Axis then you could try talking to a friend you can trust.
