There are two main ways in which you can give or get HIV :

- by getting infected blood or cum into the bloodstream (for example, through sharing needles)
- by getting infected blood or cum up the arse or down the opening of the dick (by fucking or getting fucked)

Getting cum in your mouth is thought to be very low risk.

Telephone the Terrence Higgins Trust Helpline on 071-242 1010 (3pm -10pm daily), for confidential advice, counselling or information.
