tales of gay sex

hick from  
the sticks

Simon gets an enthusiastic  
welcome to the city

Wow!  
I knew this was  
going to be a  
good move

a month later

Fuck ...  
I can't believe  
all this!

All this sex is great, but  
what if ...? I always use  
condoms, but am I really safe?

a few weeks later  
Simon meets Paul

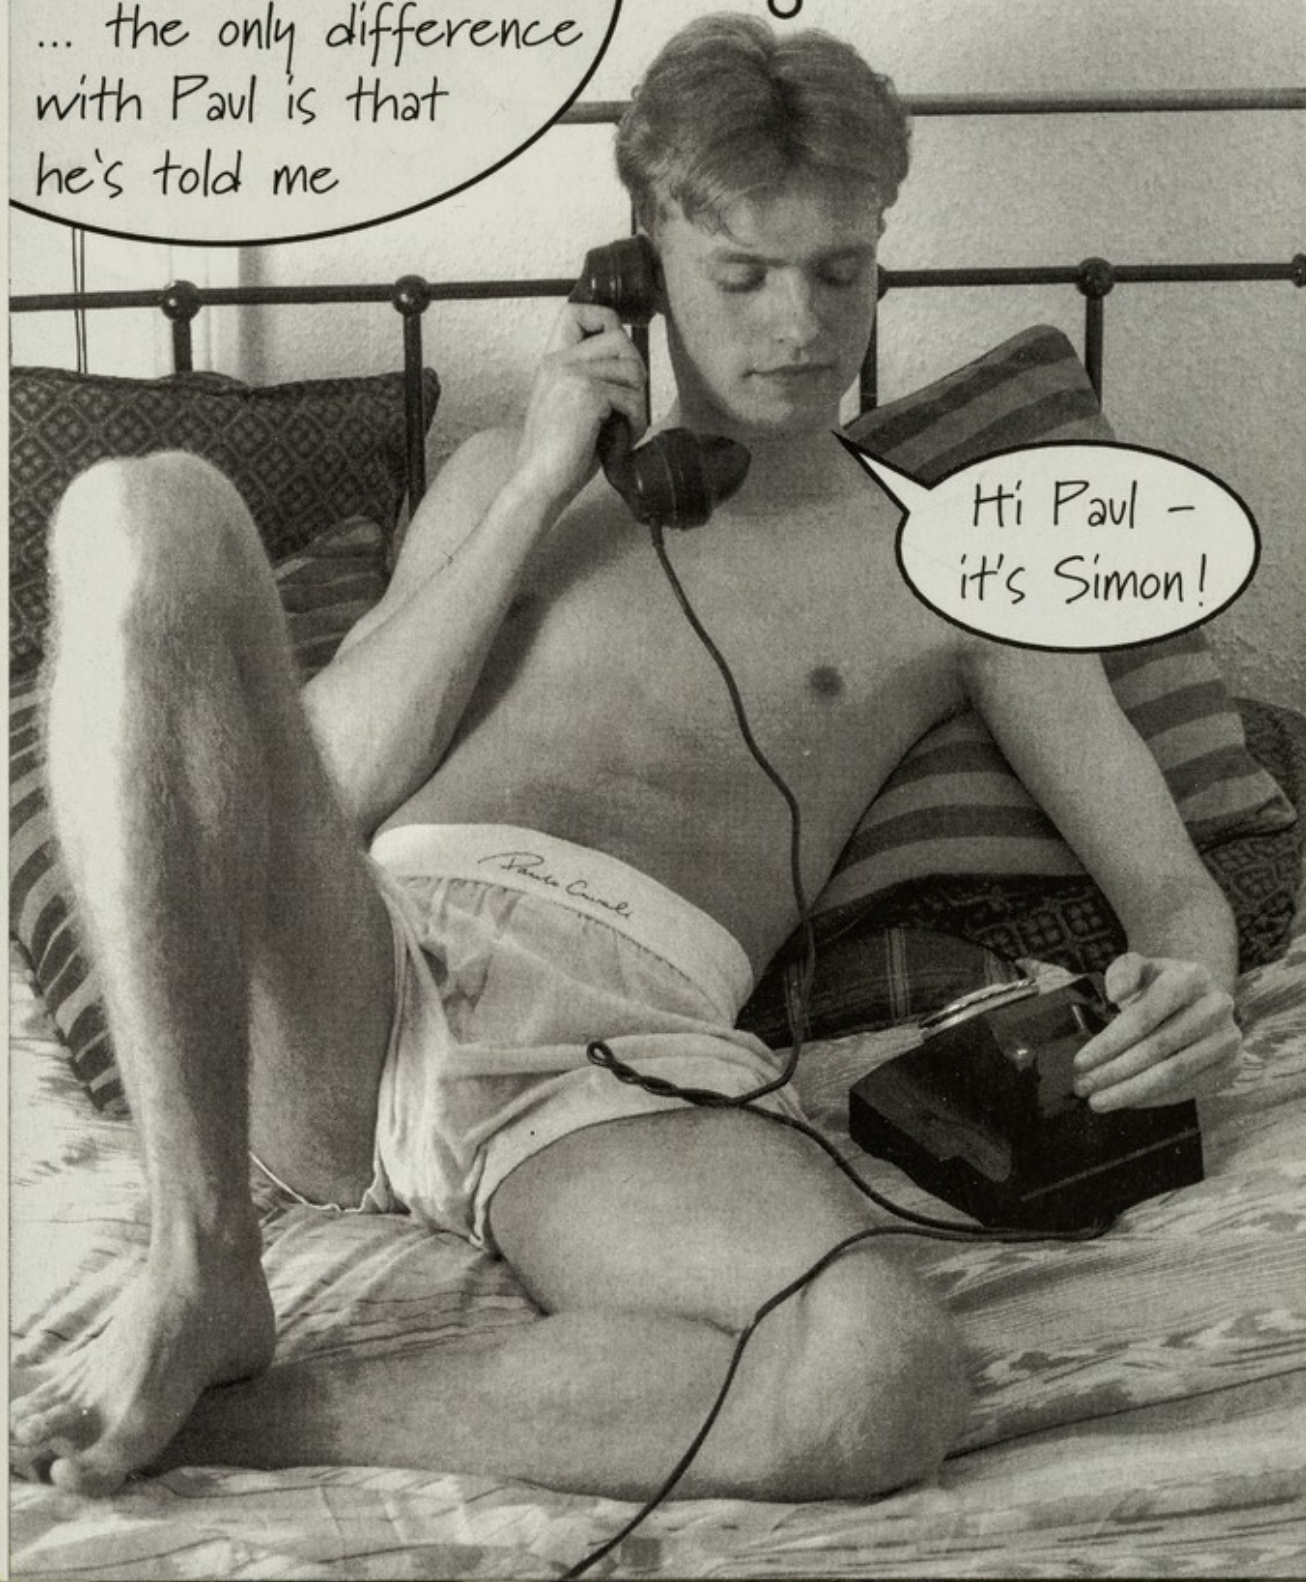

I'm really into Paul, but he's  
just told me he's HIV+

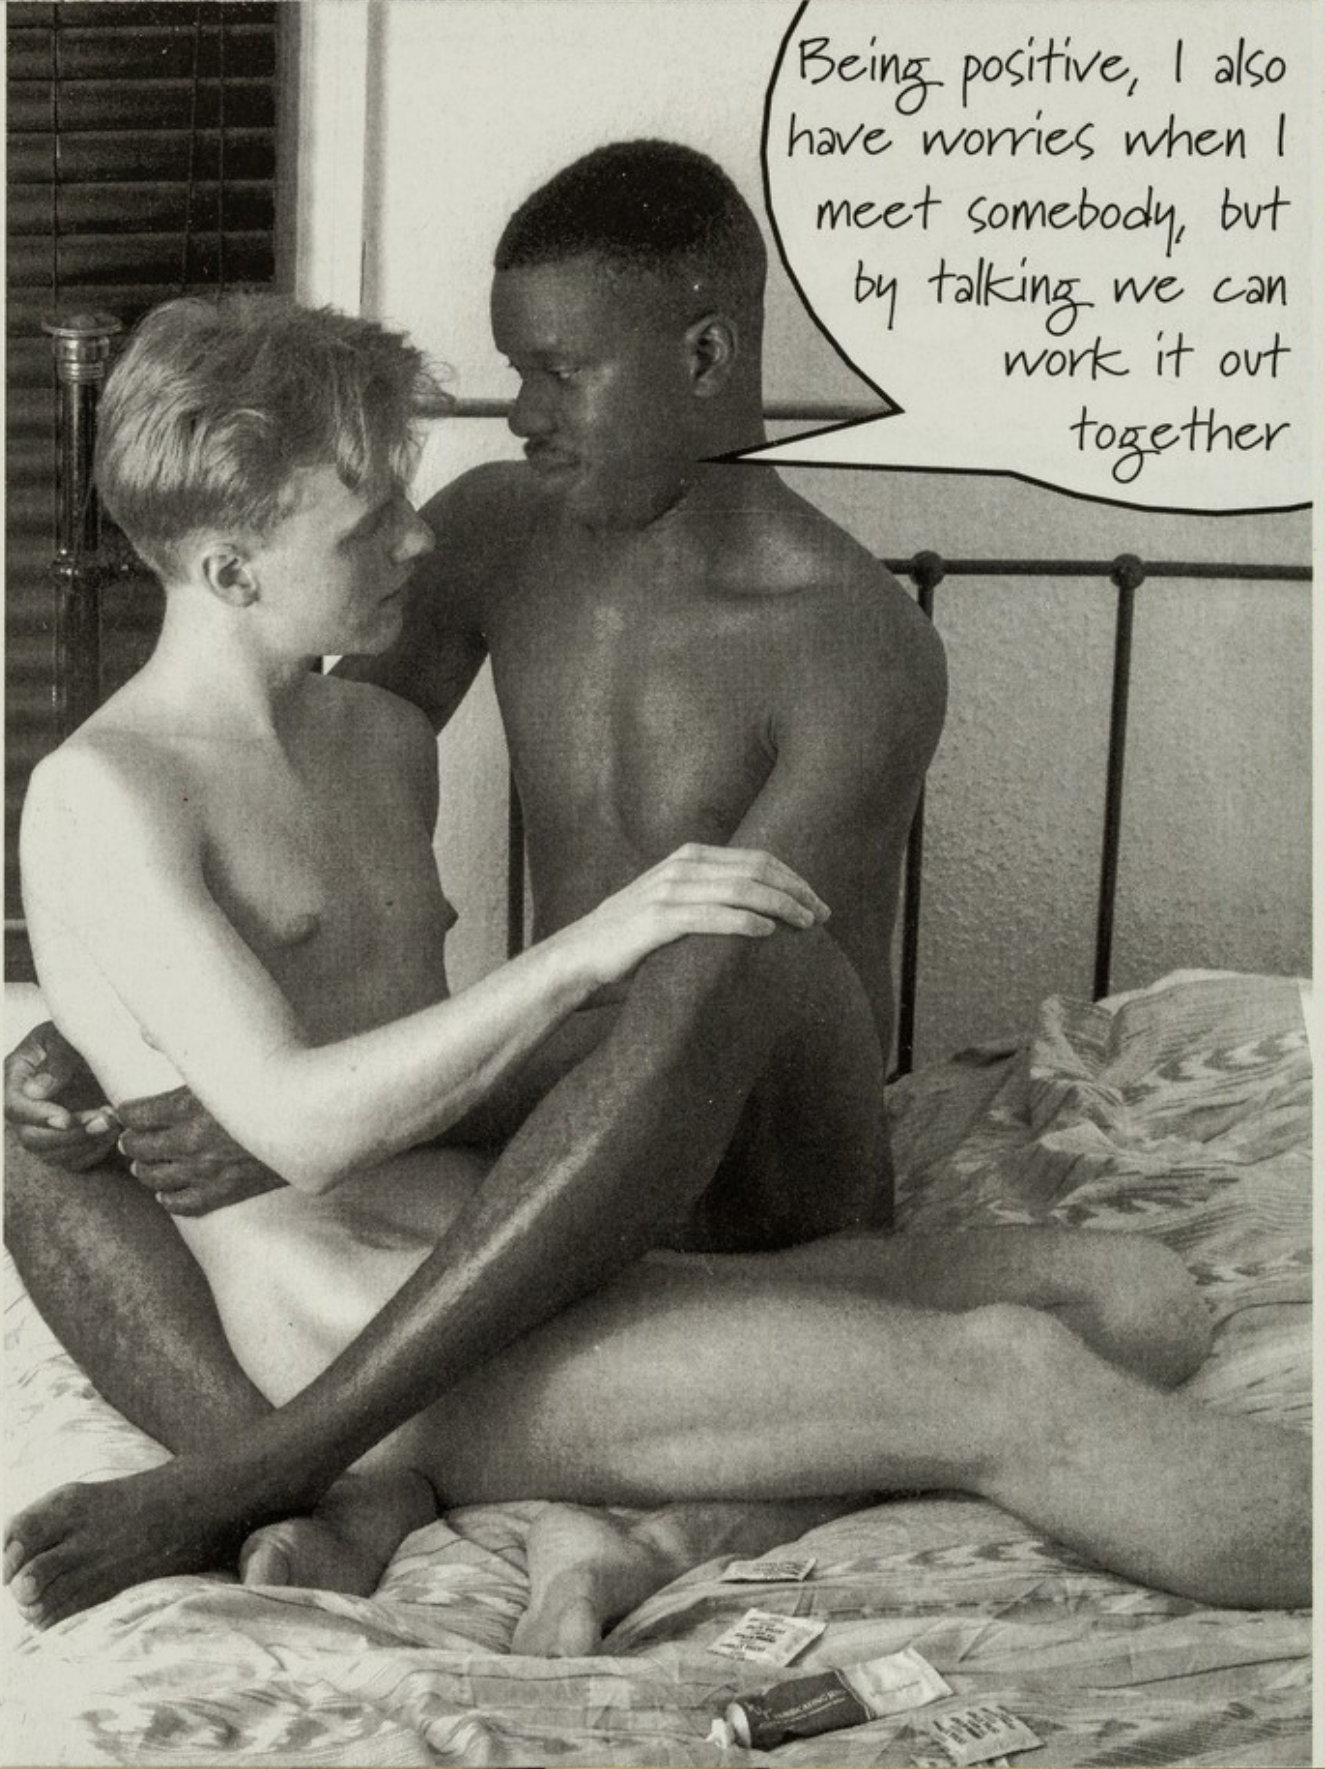

Any of the others  
could have been positive  
... the only difference  
with Paul is that  
he's told me

Hi Paul -  
it's Simon!

Being positive, I also  
have worries when I  
meet somebody, but  
by talking we can  
work it out  
together

## The Terrence Higgins Trust

*Being new to the scene can be an overwhelming experience. There's a lot to learn and much to enjoy. It can be hard to believe that you can have a lot of sex and not put yourself or others at risk of HIV. Over the last ten years gay men have proved that **safer sex does work**.*

*It can help to talk to friends about your worries or maybe use The Terrence Higgins Trust Helpline. A visit to a Sexually Transmitted Disease Clinic (Clap Clinic) is a good idea. While you're there get your hepatitis B vaccination ... and as many free condoms and lube as you can carry!*

Telephone The Terrence Higgins Trust Helpline on 071-242 1010 (daily noon -10pm), for confidential advice, counselling or information.
