Guidelines for Management of Children with HIV Infection

by

Dr Diana Gibb & Dr Sam Walters

This book provides concise, up-to-date and practical medical advice on the care of children with HIV infection. It concentrates on clinical issues but there are also sections on testing and confidentiality.

The guidelines are based on the now considerable experience at two major referral centres for HIV infected children - the Hospital for Sick Children, Great Ormond Street, and St. Mary's Hospital - and on information currently available in the literature.

The authors are Dr Diana Gibb, Senior Lecturer in Epidemiology, Institute of Child Health and Honorary Consultant Paediatrician at the Hospital for Sick Children, London and Dr Sam Walters, Senior Lecturer, Paediatric Infectious Diseases at St. Mary's Hospital, London.
