Worried about
Sexual health
and HIV?

Talk to us at

Blackliners

"I was pregnant and looking forward to my first child when I was asked whether I wanted to be tested for HIV. I agreed as I wanted the best for my baby. Although the Doctor had spoken to me about HIV/AIDS, I had not given it any serious thought as I never thought it could affect me. I was in shock when I was told that my test was positive. All of a sudden I had a multitude of worries about myself and my baby. Blackliners helped me to go through things stage by stage and at my own pace. Now I have all I am entitled to and know where to go for services".
