London W. 1.

Dear Sir

We have recently received copies of what we believe to be an important children's publication dealing with the major problem of AIDS and I am enclosing a copy with this letter.

We believe that this detailed and objective book examines not only how the virus is transmitted but how it affects the individual and how the problem is being tackled. The intention of the book is informational and we hope that it presents this in a cogent and eminently readable and visual way. I would be extremely grateful for any help that you can provide in enabling us to reach the widest possible market for this book, and if you feel that you could take copies or sale through your own outlets, or for promotion through your various lists, I would be extremely grateful. Please let me know if there is any further information that I can provide.

I look forward to hearing from you.

Yours faithfully

G W TAYLOR  
SALES DIRECTOR
