# Actifed Compound Linctus

## Indications

ACTIFED\* Compound Linctus is indicated where cough control is needed, particular examples being unproductive coughing and coughs with an allergic basis. ACTIFED Compound Linctus is effective in bronchitis where it relieves bronchospasm and reduces congestion. Coughs associated with the common cold respond well to ACTIFED Compound Linctus.

## Dosage: Every 4-6 hours

Adults and Children over 12 years	10 ml
Children 6-12	7.5 ml
1-6	5 ml
Infants 0-12 months	2.5 ml

## Caution

Although pseudoephedrine causes virtually no pressor effect in persons with normal blood pressure, ACTIFED Compound Linctus should be used with caution in patients with cardiovascular disorders.

## Presentation

ACTIFED Compound Linctus:  
triprolidine hydrochloride 1.25 mg, pseudoephedrine hydrochloride 30 mg, codeine phosphate 10 mg in each 5 ml.  
Basic cost to NHS: 3s 6d for 125 ml.

Also available: ACTIFED Tablets and Syrup each containing pseudoephedrine and triprolidine, a combination which reduces nasal and respiratory congestion.

Additional information is available on request. \*Trade Mark

and congestion  
of bronchitis and colds**

## Actifed Compound Linctus

**provides rapid and effective relief**

suppresses unproductive cough.  
dilates the bronchi to allow passage of sputum.  
gives symptomatic relief of colds as well as coughs.

When a child is troubled with persistent cough:  
"Cut a heart-shaped piece of brown paper, cover it with Russian Tallow  
or grease from a Michaelmas goose. Sew under the child's shirt next to his skin.  
Leave it there 'till it drops off."
