# ACTIFED Compound Linctus—for cough

## Indications

Cough—particularly unproductive cough and cough with an allergic basis.

## Dosage

Every 4-6 hours

Adults and children over 12 years 10ml.

Children 6-12 years 7.5ml.

Children 1-6 years 5ml.

Infants under 12 months 2.5ml.

## Caution

Although pseudoephedrine causes virtually no pressor effect in persons with normal blood pressure, ACTIFED Compound Linctus should be used with caution in patients with cardiovascular disorders. As with many antihistamine-containing preparations drowsiness may occur. It is contra-indicated in persons under treatment with mono-amine oxidase inhibitors and within two weeks of stopping such treatment.

## Formula

ACTIFED Compound Linctus contains: triprolidine hydrochloride 1.25 mg, pseudoephedrine hydrochloride 30 mg, codeine phosphate 10 mg in each 5 ml.

Basic cost to NHS 3s 6d for 125 ml.

Also available:

ACTIFED Tablets and Syrup containing triprolidine hydrochloride and pseudoephedrine hydrochloride for respiratory and nasal decongestion.

Additional information is available on request.

## ACTIFED Compound Linctus quickly quietens cough

ACTIFED\* Compound Linctus is specially formulated to provide control of cough. Because the formulation contains, in addition to codeine, the effective antihistamine triprolidine and the decongestant pseudoephedrine, ACTIFED\* Compound Linctus also relieves any associated allergy or congestion.

\*Trade Mark

Curing diseases: American Indian medicine-men sucked the disease from the patient through a horn or bone tube, often pretending to produce some object as a stone, wolf-hair, cloth, or bit of blanket from the patient's body, or from his own mouth.
