BURROUGHS - WELLCOME

*Whatever their calling
sufferers from migraine can,
by carrying a supply of 'Migril',
dispel all fear of an attack.*

*'Migril' masters all the primary
symptoms of migraine.*

*It is paradoxical that ergotamine,
accepted as the most effective drug
against the headache of migraine,
may cause nausea and vomiting—
two of the very symptoms of
a migraine attack.*

*But 'Migril' successfully overcomes
this by the inclusion of cyclizine.*
