PRIVATE REPORTS.

"One of the girls in my school was badly stung by a wasp, and the place was swollen the size of an egg. In less than three minutes your Ointment caused the swelling and pain to disappear."—GUILDFORD.

Editor of *Household Words* says:—"We are constantly appealed to for remedies which can safely be used in domestic practice for such ills as skin eruptions, burns, scalds, inflamed eyes, rheumatic and neuralgic pains, as well as colds on the chest. In all such cases, and, indeed, in a host of others, we have found CALVERT'S CARBOLIC OINTMENT invaluable."

W. C. FITZGERALD, Wellington, New Zealand, writes:—"It is, without exception, the best healing Ointment I have ever used."

Court Circular says:—"We cannot too highly recommend CALVERT'S CARBOLIC OINTMENT. It is the best general Ointment with which we are familiar, and ought to be a stock remedy in every household."

IT WILL PREVENT HAIR FALLING OFF IF USED AS DIRECTED

Dr. R. M. GOVER, in his Report to the Director-General of Prisons, says:—
"Carbolic Acid is the *most certain and powerful* of the numerous substances
used as Disinfectants. The preparations supplied by Messrs. CALVERT & Co.
are, in my opinion, *much superior to those of any other manufacturer.*"

Best Soaps for Summer.

CALVERT'S

Carbolic Toilet Soap

(6d. Tablets), and

CARBOLIC PRICKLY-HEAT SOAP,

(6d. and 1s. Bars).

Both these soaps are very refreshing and agreeable for Bath or Toilet use, and act as preventives of skin irritation or contagious diseases, besides having a very healthy and purifying effect and materially assisting to improve the complexion.

.....

Used by H.R.H. the Prince of Wales when in India.

.....

FRED. I. MOUAT, Esq., M.D., late Inspector-General of Prisons, Bengal, and Professor of Medicine in the Medical College of Calcutta, states—"For some time before I left India I used your Carbolic Soaps with much satisfaction and advantage; indeed, I ceased to use any other. I found none so detergent and so soothing to the discomfort caused by prickly heat, profuse perspiration, and other sources of dermic irritation."

~~~~~

N.B.—Many so-called "Carbolic Soaps" contain a very slight per-centage of impure Carbolic, and therefore are not reliable. Carbolic Acid is the real antiseptic principle in Coal Tar, from which it is extracted—a genuine Carbolic Soap is, consequently much more effective than one prepared with Coal Tar.
