F. C. Calvert & Co., Manchester, England.

"CALVERT'S"

CARBOLIC TOOTH POWDER,

6d., 1s., and 1s. 6d. Tins.

CARBOLIC TOOTH PASTE,

6d., 1s., and 1s. 6d. Pots.

CARBOLIC TOOTH SOAP,

3d., 6d., and 1s. Metal Boxes.

DENTO-PHENOLENE,

1s. 6d., and 2s. 6d. Bottles.

Each of the above-named preparations is a very agreeable, safe, and useful Dentifrice, pleasantly perfumed, made by a combination with the purest Medicinal Carbolic (much used by Dentists) which, by its well-known antiseptic action, exerts a highly beneficial effect in preserving the Teeth, purifying the Breath, and strengthening the Gums; also of service as preventive of infection by inhalation.

From NEWTON CRANE, Esq., late United States Consul, Manchester:—
"Your Carbolic Tooth Powder is the *best I ever used*. In this opinion I am joined by all the members of my family."

Editor of *Public Health* writes:—"Persons using this Tooth Powder will derive great benefit from its antiseptic action—its disposition to preserve the teeth and strengthen the gums."

Editor of *Health* says of the DENTO-PHENOLENE:—
"An elegant and agreeable Toothwash. This fluid forms a most efficient means of strengthening the gums in cases of tenderness; and for ridding the mouth of the aroma of tobacco 'Dento-Phenolene' is most effective."

Medical Press and Circular reports:—"Calvert's new Toothwash is a most effectual application. It is a very pleasant, agreeably-scented preparation, in which the Phenol is masked by blending it with aromatics."

A few drops in a wineglass of water make a delicious mouth wash, which smokers and others will find most effectual for sweetening the breath, and leaving a pleasant taste and refreshing coolness in the mouth.

F. C. CALVERT & Co., Manchester,
Awarded 57 Gold & Silver Medals & Diplomas.
