Testimonials.

RHEUMATISM.

Mr. JOHN NICHOLLS, Holly House, Frankton, Oswestry, writes:—"It is now six years since I consulted you (by letter) with reference to my own case which was a complication of Rheumatism and disease of joints. At that time the disease had almost run its course, I had been for sixteen months bedfast, and had been under the cleverest physicians in Liverpool, Birkenhead, and Chester, and they had all pronounced me beyond medical skill. Our family physician who was attending me when I wrote to you gave me two months to live. I heard of your treatment through a Commercial Traveller who was in the district, and hearing of my case called and so eulogised your treatment that I was prevailed upon to try it, with the result that with the exception of a deformity, it completely carried off the complaint and I now enjoy the most robust health."

SCIATICA.

Mr. W. A. ROBINSON, 83 Offmore Road, Kidderminster, writes:—"About twelve months ago my father had a very severe attack of Sciatica, so severe that he could not work, and was practically confined to bed for several months. He was treated by the doctor, and tried many things but without success, and was at last recommended to try your acid, which he persevered with until he was completely cured, and is now as well as he ever was in his life."

INDIGESTION.

Mr. G. H. HAWKINS, Postman, Brighton, writes:—"I am very glad to be able to testify as to the benefits derived from using the Acid Cure, it has done more for me than all the medicine and doctors I have had to do with. I have been a severe sufferer from what is termed Chronic Indigestion for the last seven years. I have been using the Acid for a month and am very glad to inform you that it has done wonders for me. I am able to eat with comfort things on which I hardly dared look at one time."

Relaxed Nervous System and Constipation.

Mr. G. SWAN, 8 Marjoribanks Street, Bathgate, writes:—"Your note of 12th ult. duly received. You seem to have found out the seat of my disorder at once. I had been using the Acid down the spine as far as I felt anything wrong, but not far enough to reach the seat of the disease, as after following your instructions to rub to the bottom of the spine, I felt immediate relief, and was able to go to my work four days after receiving your note. I have delayed writing you in order to make sure that a complete cure had been effected, as I had three times previously got relief and started work, but only worked one day each time. I may now say that I am fully convalescent, and much better, stronger, and healthier, than I expected to be this winter. I now take this opportunity of tendering my most grateful thanks for the assistance and relief I have obtained by your instructions and system of treatment.

You have my full permission to use the above in any way you may think fit, so that the use of your system of treatment, with God's blessing, may restore others to health, as it has done in my case."

Debility, Bronchitis, Sore Throat, and Headache.

Mrs. TAYLOR, 5 Laurel Bank, Alexandra Road, Manchester, writes:—"I consider it my duty to you to bear testimony to the great benefit I have received from your Acid. For three months I had been suffering from great debility and weakness in the back. My doctor advised me to lie for two hours daily, which I did for some time, and grew no better. A lady friend spoke to me of your Acid in the highest terms, saying she had saved pounds by using it freely for herself and children, being able to dispense almost entirely with a doctor. I was for some time unwilling, but at last did so, and in a very short time was completely cured. This occurred two years since. I am never without a bottle, and have never had a doctor since. I tried it for bronchitis, sore throat, and headache, and we have simply proved it invaluable."
