Dr. J. COLLIS BROWNE'S

CHLORODYNE.

THE ORIGINAL

AND ONLY GENUINE.

CHLORODYNE is a liquid, taken in drops. It invariably relieves *pain* of whatever kind; creates a calm, refreshing sleep; allays irritation of the nervous system when *all other remedies fail*; leaving no bad effects like opium or laudanum; and can be taken when no other medicine can be tolerated. Its value in saving life in infancy is not easily estimated—a few drops will subdue the irritation of Teething, prevent and arrest Convulsions, cure Whooping Cough, Spasms, and Flatus at once.

CHLORODYNE

is the best remedy known for COUGHS, CONSUMPTION, BRONCHITIS, ASTHMA.

effectually checks and arrests those too often fatal diseases known as DIPHTHERIA, FEVER, CROUP, AGUE.

acts like a charm in DIARRHŒA, and is the only specific in CHOLERA and DYSENTERY.

effectually cuts short all attacks of EPILEPSY, HYSTERIA, PALPITATION and SPASMS.

is the only palliative in NEURALGIA, RHEUMATISM, GOUT, CANCER, TOOTHACHE, MENINGITIS, &c.

The extensive demand for this remedy, known as Dr. J. COLLIS BROWNE'S CHLORODYNE, by the Medical Profession, Hospitals, Dispensaries—Civil, Military, and Naval—and Families, especially guarantees that this statement of its extreme importance and value is a *bonâ fide* one, and worthy the attention of all.

CAUTION.—Always ask for "Dr. J. Collis Browne's Chlorodyne," and beware of spurious compounds or imitations. Dr. Browne placed the Recipe for making "Chlorodyne" in the hands of Mr. Davenport ONLY; consequently there can be no other Manufacturer. The genuine bears the words "Dr. J. Collis Browne's Chlorodyne," on the Government Stamp of each bottle.

The following is an extract from the decision of the Vice-Chancellor in the late Chlorodyne Chancery suit—BROWNE & DAVENPORT v. FREEMAN:—Vice-Chancellor Sir W. P. Wood stated that Dr. J. Collis Browne was undoubtedly the Inventor of Chlorodyne, that the statements of the defendant Freeman were deliberately untrue, and he regretted to say that they had been sworn to. Eminent hospital Physicians of London stated that Dr. J. Collis Browne was the discoverer of Chlorodyne; that they prescribed it largely, and mean no other than Dr. Browne's. —See THE TIMES, July 13th, 1864.

Sold in Bottles at 1s. 1½d., 2s. 9d., and 4s. 6d., by all Chemists;

Or free by post from **J. T. DAVENPORT,** Sole Manufacturer,
Pharmaceutical Chemist, 33 and 34, GREAT RUSSELL ST., LONDON, W.C.
[MEDICAL TESTIMONIALS OTHER SIDE.]

TESTIMONIALS.

Earl Russell has graciously favoured J. T. Davenport with the following:—"Extract of a despatch from Mr. Webb, H.B.M. Consul at Manilla, dated Sept. 17, 1864.

"The remedy most efficacious in its effects (in Epidemic Cholera) has been found to be CHLORODYNE, and with a small quantity given to me by Dr. Burke I have saved several lives."

* * Earl Russell communicated to the College of Physicians that he had received a despatch from Her Majesty's Consul at Manilla to the effect that Cholera has been raging fearfully, and that the ONLY remedy of any service was CHLORODYNE.—See *Lancet*, Dec. 31, 1864.

Extracts from the GENERAL BOARD OF HEALTH, LONDON, as to its efficacy in Cholera.

1st Stage, or Premonitory.—In this stage the remedy acts as a *charm*, one dose generally sufficient.

2nd Stage, or that of Vomiting and Purging.—In this stage the remedy possesses great power, more than any other we are acquainted with, two or three doses being sufficient.

3rd Stage, or Collapse.—In all cases restoring the Pulse. So strongly are we convinced of the immense value of this remedy, that we cannot too forcibly urge the necessity of adopting it in all cases.

From DR. THOMAS SANDIFORD, Passage West, Cork.

I will thank you to send me a further supply of Chlorodyne. It is the most efficacious remedy I ever used, affording relief in violent attacks of Spasms within a minute after being taken. One patient in particular, who has suffered for years with periodical attacks of Spasms of a most painful nature, and unable to obtain relief from other remedies, such as opium, &c., finds nothing so prompt and efficacious as Chlorodyne.

From W. VESALIUS PETTIGREW, M.D., formerly Lecturer at St. George's Hospital, London.

I have no hesitation in stating that I have never met with any medicine so efficacious as an Anti-spasmodic and Sedative. I have used it in Consumption, Asthma, Diarrhoea, and other diseases, and am perfectly satisfied with the results.

From SYMES & Co., Pharmaceutical Chemists, Medical Hall, Simla.—January 5, 1880.

To J. T. DAVENPORT, Esq., 33, Great Russell Street, Bloomsbury, London.

DEAR SIR,—Have the goodness to furnish us with your best quotations for Dr. J. Collis Browne's Chlorodyne, as, being large buyers, we would much prefer doing business with you direct than through the wholesale houses. We embrace this opportunity of congratulating you upon the wide-spread reputation this justly-esteemed medicine has earned for itself, not only in Hindostan, but all over the East. As a remedy of general utility, we much question whether a better is imported into the country, and we shall be glad to hear of its finding a place in every Anglo-Indian home. The other brands, we are happy to say, are now relegated to the native bazaars, and, judging from their sale, we fancy their sojourn there will be but evanescent. We could multiply instances *ad infinitum* of the extraordinary efficacy of Dr. Collis Browne's Chlorodyne in Diarrhoea and Dysentery, Spasms, Cramp, Neuralgia, the Vomiting of Pregnancy, and as a general sedative, that have occurred under our personal observation during many years. In Choleraic Diarrhoea, and even in the more terrible forms of Cholera itself, we have witnessed its surprisingly controlling power. We have never used any other form of this medicine than Collis Browne's, from a firm conviction that it is decidedly the best, and also from a sense of duty we owe to the profession and the public, as we are of opinion that the substitution of any other than Collis Browne's is a deliberate breach of faith on the part of the chemist to prescriber and patient alike. We are Sir, faithfully yours,

SYMES & CO.,

Members of the Pharm. Society of Great Britain, His Excellency the Viceroy's Chemists.

From J. M'GRIGOR CROFT, M.D., M.R.C.P., London, Late Staff-Surgeon to H.M.F.

November 26, 1859.

SIR,—After prescribing Dr. J. Collis Browne's Chlorodyne for the last three years, in severe cases of Neuralgia and Tic-Douloureux, I feel that I am in a position to testify to its valuable effects. Really, in some cases it acted as a charm, when all other means had failed. Without being asked for this report, I must come forward and state my candid opinion that it is a most valuable medicine, and I have recommended several chemists in this neighbourhood not to be without it for prescriptions.

From JNO. E. GOULSTONE, M.D., late Principal Surgeon to the Steam-Ship Great Eastern.

I can confidently state that Chlorodyne is an admirable Sedative and Anti-spasmodic, having used it in Neuralgia, Hysteria, Asthma, and Consumption, with remarkably favourable results. It relieved a fit of Asthma in four minutes, where the patient had suffered eleven years in a most distressing manner, no previous remedy having had so immediate and beneficial an effect.

From DR. B. J. BOULTON & Co., Horncastle.

We have made pretty extensive use of Chlorodyne in our practice lately, and look upon it as an excellent direct Sedative and Anti-spasmodic. It seems to allay pain and irritation in whatever organ, and from whatever cause. It induces a feeling of comfort and quietude not obtainable by any other remedy, and it seems to possess this great advantage over all other Sedatives, that it leaves no unpleasant after-effects.
