Dosage: Adults take one pill (in severe cases, two) before each meal and two at bedtime with a glass of water. Children over 5 years, one pill night and morning.

N.B. After taking these pills, the urine may become a blue or greenish colour—sure proof that one of the ingredients (an excellent antiseptic) is acting properly.

Within a few hours of taking your first trial dose, you will have unmistakable evidence that De Witt's Pills have acted directly on your kidneys. But give De Witt's Pills a chance to do their work **thoroughly**. Besides the relief from aches and pains, you'll be delighted at the glorious feeling of well-being that marks the full benefit of a course of this grand family medicine.

Then he tested De Witt's Pills

He reports: “In just under a fortnight the pain completely went; I took up my golf again and played 3 rounds a week... without a return of the trouble” (signed) A. E. Webb (letter K1622)
