Among the many
different presentations
of penicillin V
One name stands out

DQV-K
the quality oral penicillin

It takes a long time to bring excellence to maturity

Dista staff pioneered the bulk manufacture of penicillin in Britain nearly twenty years ago. Their unrivalled experience has ensured that DQV-K (the accepted contraction for

Distaquaine V-K) stands out among the many brands of potassium penicillin V as the product of a manufacturer with unsurpassed standards of quality assurance.

DQV-K Syrup

This is the latest of Dista's penicillin formulations. Two of the most highly flavoured fruits, the loganberry and the cranberry, are combined with the ever-popular orange to give DQV-K Syrup its unique flavour. Patients of all ages, from the oldest to the youngest, appreciate the pleasant taste of this preparation. Thus you can be sure that when you prescribe DQV-K Syrup your patients will take the full dose regularly at the prescribed intervals.

Presentation and Basic NHS Cost
