BLOTTER

Preparing for WINTER PROTECTION

In the vitamin alphabet, 'A' and 'D' are the recognised initials of protection. Winter's arrival underlines the importance of these vitamins—and of the Adexolin preparations which present A and D at high concentration. Adexolin Capsules are first choice for your adult customers. The simple routine is one or two capsules daily throughout the cold months, with a larger dose if infection threatens—for instance, when the onset of a cold is suspected. For babies and children, Adexolin provides an equally sound and economical routine, fortifying the body's resistance to infection through the *natural* mechanisms.

ADEXOLIN

CAPSULES

In tins of 25 and 100

LIQUID

In $\frac{1}{2}$ oz. and 2 oz.
bottles.
