Always on the move...

Glaxo antibiotic products are inexpensive to stock and always on the move from your shelves. There's a wide range of all the *penicillin G* products, for injection, oral and topical use, as well as oral *penicillin V*. Streptomycin both alone and mixed with penicillin . . . as well as the successful newcomers *novobiocin* (Biotexin*) and neomycin—bacitracin (Neobacrin*). Expendable, replaceable, economical—such words describe Glaxo antibiotics.
