### How to Treat Colds

As soon as the first sign of a Cold is noticed, check it at once. It may be of two kinds. One bringing on throat irritation, with a cough,—the other,—cold in the head, aching all over the body, feverishness, etc.

**For Cold on the Lungs, Throat Irritation, Hoarseness, Coughs, etc.,** begin at once with GOODRICH COUGH REMEDY—take a sip every half hour—just enough to wet the throat so that the inflamed surfaces will continue to get the benefits through its soothing influence. Apply the Catarrh, Cold and Croup Balm to the throat and lungs and you will surely and quickly relieve the coughing and break up the Cold.

**For Cold in the Head,** aching all over the body with La Grippe, etc., at once commence to take GOODRICH COLD BREAKERS, as directed on the box. About every three hours take a dose of GOODRICH COUGH REMEDY. Apply the Balm to the nose, temples, etc. Drink hot ginger tea, producing copious sweating, and you will quickly and surely break it up.

**For Croup,** don't delay. Hasten to apply GOODRICH CATARRH, COLD AND CROUP BALM freely to throat, chest and back, cover with hot woolen cloths, and it will relieve like magic. However, don't let the children get the croup. If at night there are signs of a cold, give a dose of GOODRICH COUGH REMEDY, apply the balm freely on going to bed, and your little ones will enjoy peaceful sleep and awaken in the morning free from all signs of Cold, unless it has been too long neglected, or become deep-seated.

**To prevent and break up Pneumonia,** put patient to bed at once. Give small doses of COUGH REMEDY, keep applying freely to the chest and back applications of GOODRICH CATARRH COLD AND CROUP BALM.
