## Slip on a condom that won't slip off

Standard thickness condoms are available in a range of sizes and can protect you and your partner from HIV. Find a condom that fits you and doesn't slip off. Use loads of silicone or water-based lube on the outside of the condom. Lube under the condom also makes it more likely that it will slip off.

We recommend that gay men use condoms with a kitemark.   
Avoid condoms with spermicidal lubricants, such as Nonoxynol 9, as they can cause irritation. Boxes of strong, regular, extra large and trim condoms are available at low prices from Freedoms. Call 020 7530 3941 or order online at [www.freedoms-shop.com](http://www.freedoms-shop.com)

### Better fit – Just as safe
